KITABU QUEST P5 Physical Education and Sports

Rwanda REB-CBC learner book

Mascot: impala

This KITABU QUEST book turns the curriculum into short lessons, worked examples, guided activities, practice, review, and home links for Rwanda learners.

How To Use This Book

This book helps P5 learners study Physical Education and Sports one teachable topic at a time.

1. Start with the inquiry question and say what you already know.
2. Read the Learn section slowly and mark new words.
3. Try the worked example before reading the full solution.
4. Complete the activity and practice tasks.
5. Correct your answer using the success criteria.
6. Ask for support when your answer is still unclear.

Subject method: Learn through examples, activities, practice, and reflection.

Learning Skills In This Book

Each topic builds knowledge, skill, values, communication, collaboration, critical thinking, creativity, digital awareness, and self-confidence.

Study actively: speak answers aloud, draw when useful, show your working, cite evidence, use local examples, and correct mistakes after feedback.

A strong answer is specific. It names the idea, gives evidence or method, applies it to the task, and checks whether it answers the question.

Table Of Contents

Use this table to move through the book one topic at a time. Each topic has a lesson opener, clear teaching, a model or example, guided work, practice, and checks for understanding.

1. Motor control
2. Body control and balance
3. Gymnastics exercises
4. Athletic basic techniques
5. Football basic techniques
6. Volleyball basic techniques
7. Basketball basic techniques
8. Handball basic techniques

As you finish each topic, return to the success criteria and correct one answer before moving on.

Motor control: Lesson Opener

Learning focus: Motor control

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Motor control.

Progression focus: add reasons, compare examples, and explain choices more independently.

By the end of this topic, you should be able to:

- perform a range of exercises that focus on circulatory and respiratory systems and develop basic techniques in Gymnastics
 - english: The pupils improve their vocabulary abilities by learning new words related to sports
 - sET (human skeleton and muscles): The pupil learns about muscles functions during sport activities
 - sport facilities, whistles, a stopwatch, balls, and benches, cones, parallel beams, ropes, tumbling mats.
- PHYSICAL EDUCATION SYLLABUS FOR UPPER PRIMARY | Primary 4 - 6 50

Inquiry questions:

- How can motor control help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Motor control: Learn

Motor control becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Motor control
- Motor
- control
- idea
- skill
- example
- practice
- correction

Motor control: Worked Example

Evidence model for Motor control: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Motor control: Vocabulary And Study Skill

Use these words and study moves before you practise Motor control. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Motor control
- Motor
- control
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Motor control without a clear example, method, or evidence.

Motor control: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Motor control.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Motor control: Practice And Correction

Practice for Motor control:

1. Plan, practise, or perform a safe creative or movement task that shows: perform a range of exercises that focus on circulatory and respiratory systems and develop basic techniques in Gymnastics. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: english: The pupils improve their vocabulary abilities by learning new words related to sports. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: sET (human skeleton and muscles): The pupil learns about muscles functions during sport activities. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: sport facilities, whistles, a stopwatch, balls, and benches, cones, parallel beams, ropes, tumbling mats. PHYSICAL EDUCATION SYLLABUS FOR UPPER PRIMARY | Primary 4 - 6 50. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to motor control and write two useful sentences about it.

Motor control: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Motor control.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Motor control: Outcome Check

Show that you can perform a range of exercises that focus on circulatory and respiratory systems and develop basic techniques in Gymnastics.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Motor control: Outcome Check

Show that you can english: The pupils improve their vocabulary abilities by learning new words related to sports.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Body control and balance: Lesson Opener

Learning focus: Body control and balance

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Body control and balance.

Progression focus: add reasons, compare examples, and explain choices more independently.

By the end of this topic, you should be able to:

- perform a sequence of varied movement smoothly
- sET (human skeleton and muscles): The pupils learn about muscles functions during sport activities
- social and Religious Education: The pupils learn how to share, respect others, play fairly, work in team, and how to understand and control their feelings while practising physical and sport activities
- english: The pupils improve their vocabulary abilities by learning new words related to sports.

Assessment criteria:

- sport facilities, rooms or open and safe place, whistles, stop watches, balls, cones, ropes, narrowband, radio, drums or laptop.
- PHYSICAL EDUCATION SYLLABUS FOR UPPER PRIMARY |
Primary 4 - 6 52

Inquiry questions:

- How can body control and balance help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Body control and balance: Learn

Body control and balance becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Body control and balance
- Body
- control
- balance
- idea
- skill
- example
- practice

Body control and balance: Worked Example

Evidence model for Body control and balance: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Body control and balance: Vocabulary And Study Skill

Use these words and study moves before you practise Body control and balance. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Body control and balance
- Body
- control
- balance
- idea
- skill
- example
- practice

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Body control and balance without a clear example, method, or evidence.

Body control and balance: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Body control and balance.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Body control and balance: Practice And Correction

Practice for Body control and balance:

1. Plan, practise, or perform a safe creative or movement task that shows: perform a sequence of varied movement smoothly. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: sET (human skeleton and muscles): The pupils learn about muscles functions during sport activities. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: social and Religious Education: The pupils learn how to share, respect others, play fairly, work in team, and how to understand and control their feelings while practising physical and sport activities. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: english: The pupils improve their vocabulary abilities by learning new words related to sports. Assessment criteria: Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to body control and balance and write two useful sentences about it.

Body control and balance: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Body control and balance.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Body control and balance: Outcome Check

Show that you can perform a sequence of varied movement smoothly.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Body control and balance: Outcome Check

Show that you can sET (human skeleton and muscles): The pupils learn about muscles functions during sport activities.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Gymnastics exercises: Lesson Opener

Learning focus: Gymnastics exercises

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Gymnastics exercises.

Progression focus: add reasons, compare examples, and explain choices more independently.

By the end of this topic, you should be able to:

- perform exercises of rolling safely and refine their techniques
 - sET (human skeleton and muscles): The pupils learn about muscles functions during sport activities
 - english: The pupils improve their vocabulary abilities by learning new words related to sports
 - using an assessment checklist and rubric, the teacher evaluates pupils' ability to perform rolling exercises and adherence to safety guidelines throughout the activity. Materials:
 - sport facilities, mats, carpets, rooms, whistles, stop watches, balls, benches, cones, ropes, dumbbells.
- PHYSICAL EDUCATION SYLLABUS FOR UPPER PRIMARY | Primary 4 - 6 54

Inquiry questions:

- How can gymnastics exercises help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Gymnastics exercises: Learn

Gymnastics exercises becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Gymnastics exercises
- Gymnastics
- exercises
- idea
- skill
- example
- practice
- correction

Gymnastics exercises: Worked Example

Evidence model for Gymnastics exercises: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Gymnastics exercises: Vocabulary And Study Skill

Use these words and study moves before you practise Gymnastics exercises. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Gymnastics exercises
- Gymnastics
- exercises
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Gymnastics exercises without a clear example, method, or evidence.

Gymnastics exercises: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Gymnastics exercises.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Gymnastics exercises: Practice And Correction

Practice for Gymnastics exercises:

1. Plan, practise, or perform a safe creative or movement task that shows: perform exercises of rolling safely and refine their techniques. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: sET (human skeleton and muscles): The pupils learn about muscles functions during sport activities. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: english: The pupils improve their vocabulary abilities by learning new words related to sports. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: using an assessment checklist and rubric, the teacher evaluates pupils' ability to perform rolling exercises and adherence to safety guidelines throughout the activity. Materials:. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to gymnastics exercises and write two useful sentences about it.

Gymnastics exercises: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Gymnastics exercises.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Gymnastics exercises: Outcome Check

Show that you can perform exercises of rolling safely and refine their techniques.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Gymnastics exercises: Outcome Check

Show that you can sET (human skeleton and muscles): The pupils learn about muscles functions during sport activities.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Athletic basic techniques: Lesson Opener

Learning focus: Athletic basic techniques

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Athletic basic techniques.

Progression focus: add reasons, compare examples, and explain choices more independently.

By the end of this topic, you should be able to:

- demonstrate a variety of techniques for throwing and perform different types of jumps and runs with increased speed
- sET (human skeleton and muscles): The pupils learn about muscles functions during sport activities
- english: The pupils improve their vocabulary by learning new words related to physical education and sports. Assessment criteria:
- using assessment checklists and rubrics during exercises, the teacher evaluates pupils' ability to perform throughout the activities. Materials:

Inquiry questions:

- How can athletic basic techniques help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Athletic basic techniques: Learn

Athletic basic techniques becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Athletic basic techniques
- Athletic
- basic
- techniques
- idea
- skill
- example
- practice

Athletic basic techniques: Worked Example

Evidence model for Athletic basic techniques: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Athletic basic techniques: Vocabulary And Study Skill

Use these words and study moves before you practise Athletic basic techniques. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Athletic basic techniques
- Athletic
- basic
- techniques
- idea
- skill
- example
- practice

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Athletic basic techniques without a clear example, method, or evidence.

Athletic basic techniques: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Athletic basic techniques.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Athletic basic techniques: Practice And Correction

Practice for Athletic basic techniques:

1. Plan, practise, or perform a safe creative or movement task that shows: demonstrate a variety of techniques for throwing and perform different types of jumps and runs with increased speed. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: sET (human skeleton and muscles): The pupils learn about muscles functions during sport activities. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: english: The pupils improve their vocabulary by learning new words related to physical education and sports. Assessment criteria: Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: using assessment checklists and rubrics during exercises, the teacher evaluates pupils' ability to perform throughout the activities. Materials: Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to athletic basic techniques and write two useful sentences about it.

Athletic basic techniques: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Athletic basic techniques.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Athletic basic techniques: Outcome Check

Show that you can demonstrate a variety of techniques for throwing and perform different types of jumps and runs with increased speed.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Athletic basic techniques: Outcome Check

Show that you can sET (human skeleton and muscles): The pupils learn about muscles functions during sport activities.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Football basic techniques: Lesson Opener

Learning focus: Football basic techniques

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Football basic techniques.

Progression focus: add reasons, compare examples, and explain choices more independently.

By the end of this topic, you should be able to:

- develop technical Football skills both individually and in teams
- english: The pupils improve their vocabulary by learning new words related to physical education and sports. Assessment criteria:
- using an assessment checklist and rubric, the teacher evaluates pupils' ability to play Football by applying Materials:
- sport facilities, whistles, footballs, sticks, cones, narrow band, bibs, stopwatch, ladder, posts.

PHYSICAL EDUCATION SYLLABUS FOR UPPER PRIMARY | Primary 4 - 6 59

Inquiry questions:

- How can football basic techniques help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Football basic techniques: Learn

Football basic techniques becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Football basic techniques
- Football
- basic
- techniques
- idea
- skill
- example
- practice

Football basic techniques: Worked Example

Evidence model for Football basic techniques: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Football basic techniques: Vocabulary And Study Skill

Use these words and study moves before you practise Football basic techniques. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Football basic techniques
- Football
- basic
- techniques
- idea
- skill
- example
- practice

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Football basic techniques without a clear example, method, or evidence.

Football basic techniques: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Football basic techniques.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Football basic techniques: Practice And Correction

Practice for Football basic techniques:

1. Plan, practise, or perform a safe creative or movement task that shows: develop technical Football skills both individually and in teams. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: english: The pupils improve their vocabulary by learning new words related to physical education and sports. Assessment criteria:.. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: using an assessment checklist and rubric, the teacher evaluates pupils' ability to play Football by applying Materials:.. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: sport facilities, whistles, footballs, sticks, cones, narrow band, bibs, stopwatch, ladder, posts. PHYSICAL EDUCATION SYLLABUS FOR UPPER PRIMARY | Primary 4 - 6 59. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to football basic techniques and write two useful sentences about it.

Football basic techniques: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Football basic techniques.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Football basic techniques: Outcome Check

Show that you can develop technical Football skills both individually and in teams.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Football basic techniques: Outcome Check

Show that you can english: The pupils improve their vocabulary by learning new words related to physical education and sports. Assessment criteria:.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Volleyball basic techniques: Lesson Opener

Learning focus: Volleyball basic techniques

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Volleyball basic techniques.

Progression focus: add reasons, compare examples, and explain choices more independently.

By the end of this topic, you should be able to:

- develop technical skills of playing Volleyball in the game situations
- english: The pupils improve their vocabulary by learning new words related to physical education and sports. Assessment criteria:
- using an assessment checklist and rubric, the teacher evaluates pupils' ability to serve, pass, and play Materials:

- sport facilities, volleyballs, whistle, cones, equipment, bibs, net, rope, posts. PHYSICAL EDUCATION SYLLABUS FOR UPPER PRIMARY | Primary 4 - 6 61

Inquiry questions:

- How can volleyball basic techniques help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Volleyball basic techniques: Learn

Volleyball basic techniques becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Volleyball basic techniques
- Volleyball
- basic
- techniques
- idea
- skill
- example
- practice

Volleyball basic techniques: Worked Example

Evidence model for Volleyball basic techniques: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Volleyball basic techniques: Vocabulary And Study Skill

Use these words and study moves before you practise Volleyball basic techniques. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Volleyball basic techniques
- Volleyball
- basic
- techniques
- idea
- skill
- example
- practice

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Volleyball basic techniques without a clear example, method, or evidence.

Volleyball basic techniques: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Volleyball basic techniques.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Volleyball basic techniques: Practice And Correction

Practice for Volleyball basic techniques:

1. Plan, practise, or perform a safe creative or movement task that shows: develop technical skills of playing Volleyball in the game situations. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: english: The pupils improve their vocabulary by learning new words related to physical education and sports.
Assessment criteria: Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: using an assessment checklist and rubric, the teacher evaluates pupils' ability to serve, pass, and play Materials: Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: sport facilities, volleyballs, whistle, cones, equipment, bibs, net, rope, posts. PHYSICAL EDUCATION SYLLABUS FOR UPPER PRIMARY | Primary 4 - 6 61. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to volleyball basic techniques and write two useful sentences about it.

Volleyball basic techniques: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Volleyball basic techniques.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Volleyball basic techniques: Outcome Check

Show that you can develop technical skills of playing Volleyball in the game situations.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Volleyball basic techniques: Outcome Check

Show that you can english: The pupils improve their vocabulary by learning new words related to physical education and sports. Assessment criteria:.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.

Practical workshop for Body control and balance: Improve And Reflect.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Gymnastics exercises: Plan

Practical workshop for Gymnastics exercises: Plan.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Athletic basic techniques: Materials And Safety

Practical workshop for Athletic basic techniques: Materials And Safety.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Football basic techniques: Skill Practice

Practical workshop for Football basic techniques: Skill Practice.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Volleyball basic techniques: Create Or Perform

Practical workshop for Volleyball basic techniques: Create Or Perform.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Basketball basic techniques: Peer Feedback

Practical workshop for Basketball basic techniques: Peer Feedback.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Handball basic techniques: Improve And Reflect

Practical workshop for Handball basic techniques: Improve And Reflect.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Motor control: Plan

Practical workshop for Motor control: Plan.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Body control and balance: Materials And Safety

Practical workshop for Body control and balance: Materials And Safety.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.

3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Motor control: Review Clinic 1

Use this review clinic to strengthen Physical Education and Sports without copying earlier answers.

1. Choose one idea from Motor control that was difficult.
2. Explain the idea in your own words.
3. Make one new example from Rwanda.
4. Create one question that checks knowledge.
5. Create one question that checks skill or application.
6. Answer both questions and correct your work.

Challenge: Turn the idea into a drawing, table, map, dialogue, model, demonstration, or worked solution.

Body control and balance: Review Clinic 2

Use this review clinic to strengthen Physical Education and Sports without copying earlier answers.

1. Choose one idea from Body control and balance that was difficult.
2. Explain the idea in your own words.
3. Make one new example from Rwanda.
4. Create one question that checks knowledge.
5. Create one question that checks skill or application.
6. Answer both questions and correct your work.

Challenge: Turn the idea into a drawing, table, map, dialogue, model, demonstration, or worked solution.

Gymnastics exercises: Review Clinic 3

Use this review clinic to strengthen Physical Education and Sports without copying earlier answers.

1. Choose one idea from Gymnastics exercises that was difficult.
2. Explain the idea in your own words.
3. Make one new example from Rwanda.
4. Create one question that checks knowledge.
5. Create one question that checks skill or application.
6. Answer both questions and correct your work.

Challenge: Turn the idea into a drawing, table, map, dialogue, model, demonstration, or worked solution.

Athletic basic techniques: Review Clinic 4

Use this review clinic to strengthen Physical Education and Sports without copying earlier answers.

1. Choose one idea from Athletic basic techniques that was difficult.
2. Explain the idea in your own words.
3. Make one new example from Rwanda.
4. Create one question that checks knowledge.
5. Create one question that checks skill or application.
6. Answer both questions and correct your work.

Challenge: Turn the idea into a drawing, table, map, dialogue, model, demonstration, or worked solution.

Glossary

Use this glossary to revise important words in Physical Education and Sports.

- Motor control: Explain this term using an example from the book, your school, or your community.
- Body control and balance: Explain this term using an example from the book, your school, or your community.
- Gymnastics exercises: Explain this term using an example from the book, your school, or your community.
- Athletic basic techniques: Explain this term using an example from the book, your school, or your community.
- Football basic techniques: Explain this term using an example from the book, your school, or your community.
- Volleyball basic techniques: Explain this term using an example from the book, your school, or your community.
- Basketball basic techniques: Explain this term using an example from the book, your school, or your community.
- Handball basic techniques: Explain this term using an example from the book, your school, or your community.

Add five more words from your lessons and write your own meanings.

Answer And Teacher Notes

A strong Physical Education and Sports answer responds to the exact task, uses correct vocabulary, gives a clear example or evidence, and shows correction after feedback. For practical work, name materials, safety, process, quality checks, peer feedback, and one improvement made after review.

Final Project

Create a final project for Physical Education and Sports that shows what you can now do independently.

Your project must include:

1. A clear title.
2. A real-life problem, question, text, performance, investigation, design, or worked task.
3. Evidence from at least three lessons in this book.
4. A drawing, table, map, chart, model, dialogue, paragraph, performance plan, practical product, or worked solution.
5. A correction note showing one improvement after feedback.
6. A short reflection explaining what you learned, what was difficult, and what you will practise next.

Presentation check: keep the work neat, label important parts, use correct vocabulary, and be ready to explain your choices to a classmate or teacher.
