KITABU QUEST P6 Physical Education and Sports

Rwanda REB-CBC learner book

Mascot: impala

This KITABU QUEST book turns the curriculum into short lessons, worked examples, guided activities, practice, review, and home links for Rwanda learners.

How To Use This Book

This book helps P6 learners study Physical Education and Sports one teachable topic at a time.

1. Start with the inquiry question and say what you already know.
2. Read the Learn section slowly and mark new words.
3. Try the worked example before reading the full solution.
4. Complete the activity and practice tasks.
5. Correct your answer using the success criteria.
6. Ask for support when your answer is still unclear.

Subject method: Learn through examples, activities, practice, and reflection.

Learning Skills In This Book

Each topic builds knowledge, skill, values, communication, collaboration, critical thinking, creativity, digital awareness, and self-confidence.

Study actively: speak answers aloud, draw when useful, show your working, cite evidence, use local examples, and correct mistakes after feedback.

A strong answer is specific. It names the idea, gives evidence or method, applies it to the task, and checks whether it answers the question.

Table Of Contents

Use this table to move through the book one topic at a time. Each topic has a lesson opener, clear teaching, a model or example, guided work, practice, and checks for understanding.

1. Motor Control
2. Body control and balance
3. Gymnastics exercises
4. Athletics exercises
5. Basic Football tactics
6. Basic Volleyball Tactics
7. Basic Basketball tactics
8. Basic Handball techniques

As you finish each topic, return to the success criteria and correct one answer before moving on.

Motor Control: Lesson Opener

Learning focus: Motor Control

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Motor Control.

Progression focus: prepare for upper-primary transition by using evidence, accuracy, and reflection.

By the end of this topic, you should be able to:

- refine and increase their participation in physical exercises and improve their body control
- sET (human skeleton and muscles): The pupils learn about muscles functions during sport activities
- english: The pupils improve their vocabulary by learning new words related to physical education and sports. PHYSICAL EDUCATION SYLLABUS FOR UPPER PRIMARY | Primary 4 - 6 70

Assessment criteria:

- using an assessment checklist and rubric, the teacher evaluates pupils' ability to participate actively in physical exercises and improve body control. Materials:
- sport facilities, carpet or mat, whistle, balance bars, benches, rope, tape measure, cones, and other supportive materials

Inquiry questions:

- How can motor control help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Motor Control: Learn

Motor Control becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Motor Control
- Motor
- Control
- idea
- skill
- example
- practice
- correction

Motor Control: Worked Example

Evidence model for Motor Control: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Motor Control: Vocabulary And Study Skill

Use these words and study moves before you practise Motor Control. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Motor Control
- Motor
- Control
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Motor Control without a clear example, method, or evidence.

Motor Control: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Motor Control.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Motor Control: Practice And Correction

Practice for Motor Control:

1. Plan, practise, or perform a safe creative or movement task that shows: refine and increase their participation in physical exercises and improve their body control. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: sET (human skeleton and muscles): The pupils learn about muscles functions during sport activities. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: english: The pupils improve their vocabulary by learning new words related to physical education and sports. PHYSICAL EDUCATION SYLLABUS FOR UPPER PRIMARY | Primary 4 - 6 70 Assessment criteria:. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: using an assessment checklist and rubric, the teacher evaluates pupils' ability to participate actively in physical exercises and improve body control. Materials:. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to motor control and write two useful sentences about it.

Motor Control: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Motor Control.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Motor Control: Outcome Check

Show that you can refine and increase their participation in physical exercises and improve their body control.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Motor Control: Outcome Check

Show that you can sET (human skeleton and muscles): The pupils learn about muscles functions during sport activities.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Body control and balance: Lesson Opener

Learning focus: Body control and balance

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Body control and balance.

Progression focus: prepare for upper-primary transition by using evidence, accuracy, and reflection.

By the end of this topic, you should be able to:

- create a simple character and narrative through movement and dance in response to a range of stimuli
- sET (human skeleton and muscles): The pupils learn about muscles functions during sport activities
- english: The pupils improve their vocabulary by learning new words related to physical education and sports. Assessment criteria:
 - using an assessment checklist and rubric, the teacher evaluates pupils' ability to create a simple character the given theme or music. Good coordination, sequencing, and focused performance are also expected. Materials:
- sport facilities, radio, drums, drumsticks, piano, rope, CD player, hard disk, computer, speakers, balls, ladder, and stairs. PHYSICAL EDUCATION SYLLABUS FOR UPPER PRIMARY | Primary 4 - 6 73

Inquiry questions:

- How can body control and balance help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Body control and balance: Learn

Body control and balance becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Body control and balance
- Body
- control
- balance
- idea
- skill
- example
- practice

Body control and balance: Worked Example

Evidence model for Body control and balance: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Body control and balance: Vocabulary And Study Skill

Use these words and study moves before you practise Body control and balance. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Body control and balance
- Body
- control
- balance
- idea
- skill
- example
- practice

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Body control and balance without a clear example, method, or evidence.

Body control and balance: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Body control and balance.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Body control and balance: Practice And Correction

Practice for Body control and balance:

1. Plan, practise, or perform a safe creative or movement task that shows: create a simple character and narrative through movement and dance in response to a range of stimuli. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: sET (human skeleton and muscles): The pupils learn about muscles functions during sport activities. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: english: The pupils improve their vocabulary by learning new words related to physical education and sports.

Assessment criteria:.. Explain the choices you made.

4. Plan, practise, or perform a safe creative or movement task that shows: using an assessment checklist and rubric, the teacher evaluates pupils' ability to create a simple character the given theme or music. Good coordination, sequencing, and focused performance are also expected. Materials:.. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to body control and balance and write two useful sentences about it.

Body control and balance: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Body control and balance.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Body control and balance: Outcome Check

Show that you can create a simple character and narrative through movement and dance in response to a range of stimuli.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Body control and balance: Outcome Check

Show that you can sET (human skeleton and muscles): The pupils learn about muscles functions during sport activities.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Gymnastics exercises: Lesson Opener

Learning focus: Gymnastics exercises

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Gymnastics exercises.

Progression focus: prepare for upper-primary transition by using evidence, accuracy, and reflection.

By the end of this topic, you should be able to:

- safely execute basic gymnastic movements such as forward roll, backwards roll, body balance positions, and group movement sequences
 - sET (human skeleton and muscles): The pupils learn about muscles functions during sport activities
 - english: The pupils improve their vocabulary by learning new words related to Physical Education and Sports. Assessment criteria:
 - using an assessment checklist and rubric, the teacher evaluates how well pupils perform Gymnastics and other strength, and flexibility, as well as their effort and safety during movements.
- Materials:

Inquiry questions:

- How can gymnastics exercises help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Gymnastics exercises: Learn

Gymnastics exercises becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Gymnastics exercises
- Gymnastics
- exercises
- idea
- skill
- example
- practice
- correction

Gymnastics exercises: Worked Example

Evidence model for Gymnastics exercises: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Gymnastics exercises: Vocabulary And Study Skill

Use these words and study moves before you practise Gymnastics exercises. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Gymnastics exercises
- Gymnastics
- exercises
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Gymnastics exercises without a clear example, method, or evidence.

Gymnastics exercises: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Gymnastics exercises.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Gymnastics exercises: Practice And Correction

Practice for Gymnastics exercises:

1. Plan, practise, or perform a safe creative or movement task that shows: safely execute basic gymnastic movements such as forward roll, backwards roll, body balance positions, and group movement sequences. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: sET (human skeleton and muscles): The pupils learn about muscles functions during sport activities. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: english: The pupils improve their vocabulary by learning new words related to Physical Education and Sports. Assessment criteria:.. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: using an assessment checklist and rubric, the teacher evaluates how well pupils perform Gymnastics and other strength, and flexibility, as well as their effort and safety during movements. Materials:.. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to gymnastics exercises and write two useful sentences about it.

Gymnastics exercises: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Gymnastics exercises.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Gymnastics exercises: Outcome Check

Show that you can safely execute basic gymnastic movements such as forward roll, backwards roll, body balance positions, and group movement sequences.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Gymnastics exercises: Outcome Check

Show that you can sET (human skeleton and muscles): The pupils learn about muscles functions during sport activities.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Athletics exercises: Lesson Opener

Learning focus: Athletics exercises

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Athletics exercises.

Progression focus: prepare for upper-primary transition by using evidence, accuracy, and reflection.

By the end of this topic, you should be able to:

- jump, run, and throw from different positions
- sET (human skeleton and muscles): The pupils learn about muscles functions during sport activities
- english: The pupils improve their vocabulary by learning new words related to Physical Education and Sports. Assessment criteria:
- using an assessment checklist and rubric, the teacher evaluates pupils' ability to perform jumping, running, in the evaluation. Materials:
- sport facilities, cones, whistle, stopwatch, and ground markers, low hurdles or improvised safe obstacles, discus. PHYSICAL EDUCATION SYLLABUS FOR UPPER PRIMARY | Primary 4 - 6 79

Inquiry questions:

- How can athletics exercises help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Athletics exercises: Learn

Athletics exercises becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Athletics exercises
- Athletics
- exercises
- idea
- skill
- example
- practice
- correction

Athletics exercises: Worked Example

Evidence model for Athletics exercises: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Athletics exercises: Vocabulary And Study Skill

Use these words and study moves before you practise Athletics exercises. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Athletics exercises
- Athletics
- exercises
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Athletics exercises without a clear example, method, or evidence.

Athletics exercises: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Athletics exercises.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Athletics exercises: Practice And Correction

Practice for Athletics exercises:

1. Plan, practise, or perform a safe creative or movement task that shows: jump, run, and throw from different positions. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: sET (human skeleton and muscles): The pupils learn about muscles functions during sport activities. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: english: The pupils improve their vocabulary by learning new words related to Physical Education and Sports. Assessment criteria: Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: using an assessment checklist and rubric, the teacher evaluates pupils' ability to perform jumping, running, in the evaluation. Materials: Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to athletics exercises and write two useful sentences about it.

Athletics exercises: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Athletics exercises.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Athletics exercises: Outcome Check

Show that you can jump, run, and throw from different positions.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Athletics exercises: Outcome Check

Show that you can sET (human skeleton and muscles): The pupils learn about muscles functions during sport activities.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Basic Football tactics: Lesson Opener

Learning focus: Basic Football tactics

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Basic Football tactics.

Progression focus: prepare for upper-primary transition by using evidence, accuracy, and reflection.

By the end of this topic, you should be able to:

- develop Football skills and apply techniques and tactics of kicking, passing, and using appropriate parts of the body during game play
- english: The pupils improve their vocabulary by learning new words related to physical education and sports. Assessment criteria:
 - using an assessment checklist and rubric, the teacher evaluates pupils' ability to apply kicking and passing with proper tactics. Pupils are also assessed on their decision-making and teamwork during play. Materials:
 - sport facilities, Footballs, whistle, red and yellow cards, cones or other markers, locally made balls, etc. PHYSICAL EDUCATION SYLLABUS FOR UPPER PRIMARY | Primary 4 - 6 81

Inquiry questions:

- How can basic football tactics help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Basic Football tactics: Learn

Basic Football tactics becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Basic Football tactics
- Basic
- Football
- tactics
- idea
- skill
- example
- practice

Basic Football tactics: Worked Example

Evidence model for Basic Football tactics: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Basic Football tactics: Vocabulary And Study Skill

Use these words and study moves before you practise Basic Football tactics. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Basic Football tactics
- Basic
- Football
- tactics
- idea
- skill
- example
- practice

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Basic Football tactics without a clear example, method, or evidence.

Basic Football tactics: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Basic Football tactics.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Basic Football tactics: Practice And Correction

Practice for Basic Football tactics:

1. Plan, practise, or perform a safe creative or movement task that shows: develop Football skills and apply techniques and tactics of kicking, passing, and using appropriate parts of the body during game play. Explain the choices you made.

2. Plan, practise, or perform a safe creative or movement task that shows: english: The pupils improve their vocabulary by learning new words related to physical education and sports.

Assessment criteria:.. Explain the choices you made.

3. Plan, practise, or perform a safe creative or movement task that shows: using an assessment checklist and rubric, the teacher evaluates pupils' ability to apply kicking and passing with proper tactics. Pupils are also assessed on their decision-making and teamwork during play. Materials:.. Explain the choices you made.

4. Plan, practise, or perform a safe creative or movement task that shows: sport facilities, Footballs, whistle, red and yellow cards, cones or other markers, locally made balls, etc. PHYSICAL EDUCATION SYLLABUS FOR UPPER PRIMARY | Primary 4 - 6 81. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to basic football tactics and write two useful sentences about it.

Basic Football tactics: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Basic Football tactics.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Basic Football tactics: Outcome Check

Show that you can develop Football skills and apply techniques and tactics of kicking, passing, and using appropriate parts of the body during game play.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Basic Football tactics: Outcome Check

Show that you can english: The pupils improve their vocabulary by learning new words related to physical education and sports. Assessment criteria:.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Basic Volleyball Tactics: Lesson Opener

Learning focus: Basic Volleyball Tactics

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Basic Volleyball Tactics.

Progression focus: prepare for upper-primary transition by using evidence, accuracy, and reflection.

By the end of this topic, you should be able to:

- improve techniques of playing Volleyball tactically in game situations
 - english: The pupils improve their vocabulary by learning new words related to physical education and sports. Assessment criteria:
 - using an assessment checklist and rubric, the teacher evaluates the abilities of pupils to use basic Volleyball use these skills in the game situation, work with teammates, and follow the rules of the game. Materials:
 - sport facilities, volleyballs, net (adjusted to pupil height), whistles, cones, red/yellow cards, bibs for teams.
- PHYSICAL EDUCATION SYLLABUS FOR UPPER PRIMARY | Primary 4 - 6 83

Inquiry questions:

- How can basic volleyball tactics help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Basic Volleyball Tactics: Learn

Basic Volleyball Tactics becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Basic Volleyball Tactics
- Basic
- Volleyball
- Tactics
- idea
- skill
- example
- practice

Basic Volleyball Tactics: Worked Example

Evidence model for Basic Volleyball Tactics: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Basic Volleyball Tactics: Vocabulary And Study Skill

Use these words and study moves before you practise Basic Volleyball Tactics. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Basic Volleyball Tactics
- Basic
- Volleyball
- Tactics
- idea
- skill
- example
- practice

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Basic Volleyball Tactics without a clear example, method, or evidence.

Basic Volleyball Tactics: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Basic Volleyball Tactics.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Basic Volleyball Tactics: Practice And Correction

Practice for Basic Volleyball Tactics:

1. Plan, practise, or perform a safe creative or movement task that shows: improve techniques of playing Volleyball tactically in game situations. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: english: The pupils improve their vocabulary by learning new words related to physical education and sports.
Assessment criteria: Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: using an assessment checklist and rubric, the teacher evaluates the abilities of pupils to use basic Volleyball use these skills in the game situation, work with teammates, and follow the rules of the game. Materials: Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: sport facilities, volleyballs, net (adjusted to pupil height), whistles, cones, red/yellow cards, bibs for teams. PHYSICAL EDUCATION SYLLABUS FOR UPPER PRIMARY | Primary 4 - 6 83. Explain the choices you made.

2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Motor Control: Peer Feedback

Practical workshop for Motor Control: Peer Feedback.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Body control and balance: Improve And Reflect

Practical workshop for Body control and balance: Improve And Reflect.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Gymnastics exercises: Plan

Practical workshop for Gymnastics exercises: Plan.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Athletics exercises: Materials And Safety

Practical workshop for Athletics exercises: Materials And Safety.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Basic Football tactics: Skill Practice

Practical workshop for Basic Football tactics: Skill Practice.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Basic Volleyball Tactics: Create Or Perform

Practical workshop for Basic Volleyball Tactics: Create Or Perform.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Basic Basketball tactics: Peer Feedback

Practical workshop for Basic Basketball tactics: Peer Feedback.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Basic Handball techniques: Improve And Reflect

Practical workshop for Basic Handball techniques: Improve And Reflect.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Motor Control: Plan

Practical workshop for Motor Control: Plan.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Body control and balance: Materials And Safety

Practical workshop for Body control and balance: Materials And Safety.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Gymnastics exercises: Skill Practice

Practical workshop for Gymnastics exercises: Skill Practice.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Athletics exercises: Create Or Perform

Practical workshop for Athletics exercises: Create Or Perform.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Basic Football tactics: Peer Feedback

Practical workshop for Basic Football tactics: Peer Feedback.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.

6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Motor Control: Review Clinic 1

Use this review clinic to strengthen Physical Education and Sports without copying earlier answers.

1. Choose one idea from Motor Control that was difficult.
2. Explain the idea in your own words.
3. Make one new example from Rwanda.
4. Create one question that checks knowledge.
5. Create one question that checks skill or application.
6. Answer both questions and correct your work.

Challenge: Turn the idea into a drawing, table, map, dialogue, model, demonstration, or worked solution.

Body control and balance: Review Clinic 2

Use this review clinic to strengthen Physical Education and Sports without copying earlier answers.

1. Choose one idea from Body control and balance that was difficult.
2. Explain the idea in your own words.
3. Make one new example from Rwanda.
4. Create one question that checks knowledge.
5. Create one question that checks skill or application.
6. Answer both questions and correct your work.

Challenge: Turn the idea into a drawing, table, map, dialogue, model, demonstration, or worked solution.

Gymnastics exercises: Review Clinic 3

Use this review clinic to strengthen Physical Education and Sports without copying earlier answers.

1. Choose one idea from Gymnastics exercises that was difficult.
2. Explain the idea in your own words.
3. Make one new example from Rwanda.
4. Create one question that checks knowledge.
5. Create one question that checks skill or application.
6. Answer both questions and correct your work.

Challenge: Turn the idea into a drawing, table, map, dialogue, model, demonstration, or worked solution.

Athletics exercises: Review Clinic 4

Use this review clinic to strengthen Physical Education and Sports without copying earlier answers.

1. Choose one idea from Athletics exercises that was difficult.
2. Explain the idea in your own words.
3. Make one new example from Rwanda.
4. Create one question that checks knowledge.
5. Create one question that checks skill or application.
6. Answer both questions and correct your work.

Challenge: Turn the idea into a drawing, table, map, dialogue, model, demonstration, or worked solution.

Glossary

Use this glossary to revise important words in Physical Education and Sports.

- Motor Control: Explain this term using an example from the book, your school, or your community.
- Body control and balance: Explain this term using an example from the book, your school, or your community.
- Gymnastics exercises: Explain this term using an example from the book, your school, or your community.
- Athletics exercises: Explain this term using an example from the book, your school, or your community.
- Basic Football tactics: Explain this term using an example from the book, your school, or your community.
- Basic Volleyball Tactics: Explain this term using an example from the book, your school, or your community.
- Basic Basketball tactics: Explain this term using an example from the book, your school, or your community.
- Basic Handball techniques: Explain this term using an example from the book, your school, or your community.

Add five more words from your lessons and write your own meanings.

Answer And Teacher Notes

A strong Physical Education and Sports answer responds to the exact task, uses correct vocabulary, gives a clear example or evidence, and shows correction after feedback. For practical work, name materials, safety, process, quality checks, peer feedback, and one improvement made after review.

Final Project

Create a final project for Physical Education and Sports that shows what you can now do independently.

Your project must include:

1. A clear title.
2. A real-life problem, question, text, performance, investigation, design, or worked task.
3. Evidence from at least three lessons in this book.
4. A drawing, table, map, chart, model, dialogue, paragraph, performance plan, practical product, or worked solution.
5. A correction note showing one improvement after feedback.
6. A short reflection explaining what you learned, what was difficult, and what you will practise next.

Presentation check: keep the work neat, label important parts, use correct vocabulary, and be ready to explain your choices to a classmate or teacher.
