KITABU QUEST S1 Physical Education and Sports

Rwanda REB-CBC learner book

Mascot: impala

This KITABU QUEST book turns the curriculum into short lessons, worked examples, guided activities, practice, review, and home links for Rwanda learners.

How To Use This Book

This book helps S1 learners study Physical Education and Sports one teachable topic at a time.

1. Start with the inquiry question and say what you already know.
2. Read the Learn section slowly and mark new words.
3. Try the worked example before reading the full solution.
4. Complete the activity and practice tasks.
5. Correct your answer using the success criteria.
6. Ask for support when your answer is still unclear.

Subject method: Learn through examples, activities, practice, and reflection.

Learning Skills In This Book

Each topic builds knowledge, skill, values, communication, collaboration, critical thinking, creativity, digital awareness, and self-confidence.

Study actively: speak answers aloud, draw when useful, show your working, cite evidence, use local examples, and correct mistakes after feedback.

A strong answer is specific. It names the idea, gives evidence or method, applies it to the task, and checks whether it answers the question.

Table Of Contents

Use this table to move through the book one topic at a time. Each topic has a lesson opener, clear teaching, a model or example, guided work, practice, and checks for understanding.

1. Motor control
2. Body control and balance
3. Gymnastics
4. Athletics
5. Football
6. Volleyball
7. Basketball
8. Handball
9. Goal ball
10. Sitting volleyball
11. Netball

As you finish each topic, return to the success criteria and correct one answer before moving on.

Motor control: Lesson Opener

Learning focus: Motor control

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Motor control.

Progression focus: build lower-secondary foundations with clear vocabulary and guided application.

By the end of this topic, you should be able to:

- develop physical exercise routines and advise how to apply them
- explain the role of physical exercises in body development
- discuss how to control one's body during physical exercises
- perform physical exercises as instructed
- create one's own exercises according to the previous ones learned
- ability to balance. -

Inquiry questions:

- How can motor control help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Motor control: Learn

Motor control becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Motor control
- Motor
- control
- idea
- skill
- example
- practice
- correction

Motor control: Worked Example

Evidence model for Motor control: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Motor control: Vocabulary And Study Skill

Use these words and study moves before you practise Motor control. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Motor control
- Motor
- control
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Motor control without a clear example, method, or evidence.

Motor control: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Motor control.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Motor control: Practice And Correction

Practice for Motor control:

1. Plan, practise, or perform a safe creative or movement task that shows: develop physical exercise routines and advise how to apply them. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: explain the role of physical exercises in body development. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: discuss how to control ones' body during physical exercises. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: perform physical exercises as instructed. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to motor control and write two useful sentences about it.

Motor control: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Motor control.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Motor control: Outcome Check

Show that you can develop physical exercise routines and advise how to apply them.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Motor control: Outcome Check

Show that you can explain the role of physical exercises in body development.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Body control and balance: Lesson Opener

Learning focus: Body control and balance

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Body control and balance.

Progression focus: build lower-secondary foundations with clear vocabulary and guided application.

By the end of this topic, you should be able to:

- maintain a balanced position for a given period and task
- express the importance of physical exercises in body development
- Explain the influence of movement of the main organic and psycho-motor functions
- ability to stand in different positions and maintain balance with increasing duration of time. - Ability to increase speed and intensity of exercises
- develop self- confidence when performing physical

Inquiry questions:

- How can body control and balance help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Body control and balance: Learn

Body control and balance becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Body control and balance
- Body
- control
- balance
- idea
- skill
- example
- practice

Body control and balance: Worked Example

Evidence model for Body control and balance: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Body control and balance: Vocabulary And Study Skill

Use these words and study moves before you practise Body control and balance. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Body control and balance
- Body
- control
- balance
- idea
- skill
- example
- practice

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Body control and balance without a clear example, method, or evidence.

Body control and balance: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Body control and balance.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Body control and balance: Practice And Correction

Practice for Body control and balance:

1. Plan, practise, or perform a safe creative or movement task that shows: maintain a balanced position for a given period and task. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: express the importance of physical exercises in body development. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: - Explain the influence of movement of the main organic and psycho-motor functions. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: ability to stand in different positions and maintain balance with increasing duration of time. - Ability to increase speed and intensity of exercises. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to body control and balance and write two useful sentences about it.

Body control and balance: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Body control and balance.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Body control and balance: Outcome Check

Show that you can maintain a balanced position for a given period and task.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Body control and balance: Outcome Check

Show that you can express the importance of physical exercises in body development.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Gymnastics: Lesson Opener

Learning focus: Gymnastics

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Gymnastics.

Progression focus: build lower-secondary foundations with clear vocabulary and guided application.

By the end of this topic, you should be able to:

- perform floor exercises or use exercising machines
- distinguish floor exercises and exercises performed using exercise machines
- explain the role of gymnastics exercises in everyday life
- perform various gymnastics exercises performed on the floor
- timely react to different signals and orders
- control body parts when performing gymnastics exercises

Inquiry questions:

- How can gymnastics help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Gymnastics: Learn

Gymnastics becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Gymnastics
- idea
- skill
- example
- practice
- correction

Gymnastics: Worked Example

Evidence model for Gymnastics: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Gymnastics: Vocabulary And Study Skill

Use these words and study moves before you practise Gymnastics. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Gymnastics
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Gymnastics without a clear example, method, or evidence.

Gymnastics: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Gymnastics.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Gymnastics: Practice And Correction

Practice for Gymnastics:

1. Plan, practise, or perform a safe creative or movement task that shows: perform floor exercises or use exercising machines. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: distinguish floor exercises and exercises performed using exercise machines. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: explain the role of gymnastics exercises in everyday life. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: perform various gymnastics exercises performed on the floor. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to gymnastics and write two useful sentences about it.

Gymnastics: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Gymnastics.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Gymnastics: Outcome Check

Show that you can perform floor exercises or use exercising machines.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Gymnastics: Outcome Check

Show that you can distinguish floor exercises and exercises performed using exercise machines.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Athletics: Lesson Opener

Learning focus: Athletics

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Athletics.

Progression focus: build lower-secondary foundations with clear vocabulary and guided application.

By the end of this topic, you should be able to:

- develop different types of running, jumping, and throwing techniques and abilities
- state different types of running, jumping and throwing
- differentiate between speed running and endurance
- develop self- confidence
- improve self-control
- plan, practise, perform, or create work related to athletics

Inquiry questions:

- How can athletics help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Athletics: Learn

Athletics becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Athletics
- idea
- skill
- example
- practice
- correction

Athletics: Worked Example

Evidence model for Athletics: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Athletics: Vocabulary And Study Skill

Use these words and study moves before you practise Athletics. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Athletics
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Athletics without a clear example, method, or evidence.

Athletics: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Athletics.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Athletics: Practice And Correction

Practice for Athletics:

1. Plan, practise, or perform a safe creative or movement task that shows: develop different types of running, jumping, and throwing techniques and abilities. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: state different types of running, jumping and throwing. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: differentiate between speed running and endurance. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: develop self- confidence. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to athletics and write two useful sentences about it.

Athletics: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Athletics.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Athletics: Outcome Check

Show that you can develop different types of running, jumping, and throwing techniques and abilities.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Athletics: Outcome Check

Show that you can state different types of running, jumping and throwing.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Football: Lesson Opener

Learning focus: Football

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Football.

Progression focus: build lower-secondary foundations with clear vocabulary and guided application.

By the end of this topic, you should be able to:

- use different football techniques in various game situations and apply basic rules
- state different techniques of football
- explain the role of playing in a team
- show one's role in a team
- interpret the rules of the game
- basic techniques of football

Inquiry questions:

- How can football help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Football: Learn

Football becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Football
- idea
- skill
- example
- practice
- correction

Football: Worked Example

Evidence model for Football: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Football: Vocabulary And Study Skill

Use these words and study moves before you practise Football. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Football
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Football without a clear example, method, or evidence.

Football: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Football.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Football: Practice And Correction

Practice for Football:

1. Plan, practise, or perform a safe creative or movement task that shows: use different football techniques in various game situations and apply basic rules. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: state different techniques of football. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: explain the role of playing in a team. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: show one's role in a team. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to football and write two useful sentences about it.

Football: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Football.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Football: Outcome Check

Show that you can use different football techniques in various game situations and apply basic rules.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Football: Outcome Check

Show that you can state different techniques of football.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Volleyball: Lesson Opener

Learning focus: Volleyball

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Volleyball.

Progression focus: build lower-secondary foundations with clear vocabulary and guided application.

By the end of this topic, you should be able to:

- use different volleyball techniques in various game situations and apply basic rules
- state different techniques of volleyball
- explain the role of playing in a team
- show one's role in a team
- interpret the rules of the game
- understand leadership

Inquiry questions:

- How can volleyball help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Volleyball: Learn

Volleyball becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Volleyball
- idea
- skill
- example
- practice
- correction

Volleyball: Worked Example

Evidence model for Volleyball: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Volleyball: Vocabulary And Study Skill

Use these words and study moves before you practise Volleyball. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Volleyball
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Volleyball without a clear example, method, or evidence.

Volleyball: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Volleyball.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Volleyball: Practice And Correction

Practice for Volleyball:

1. Plan, practise, or perform a safe creative or movement task that shows: use different volleyball techniques in various game situations and apply basic rules. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: state different techniques of volleyball. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: explain the role of playing in a team. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: show one's role in a team. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to volleyball and write two useful sentences about it.

Volleyball: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Volleyball.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Volleyball: Outcome Check

Show that you can use different volleyball techniques in various game situations and apply basic rules.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Volleyball: Outcome Check

Show that you can state different techniques of volleyball.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Basketball: Lesson Opener

Learning focus: Basketball

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Basketball.

Progression focus: build lower-secondary foundations with clear vocabulary and guided application.

By the end of this topic, you should be able to:

- use different basketball techniques in various game situations and apply basic rules
- state different techniques of handball
- basic techniques of handball
- recognize techniques of playing basketball
- show self-discipline

Inquiry questions:

- How can basketball help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Basketball: Learn

Basketball becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Basketball
- idea
- skill
- example

Basketball: Worked Example

Evidence model for Basketball: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Basketball: Vocabulary And Study Skill

Use these words and study moves before you practise Basketball. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Basketball
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Basketball without a clear example, method, or evidence.

Basketball: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Basketball.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Basketball: Practice And Correction

Practice for Basketball:

1. Plan, practise, or perform a safe creative or movement task that shows: use different basketball techniques in various game situations and apply basic rules. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: state different techniques of handball. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: basic techniques of handball. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: recognize techniques of playing basketball. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to basketball and write two useful sentences about it.

Basketball: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Basketball.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Basketball: Outcome Check

Show that you can use different basketball techniques in various game situations and apply basic rules.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Basketball: Outcome Check

Show that you can state different techniques of handball.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Handball: Lesson Opener

Learning focus: Handball

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Handball.

Progression focus: build lower-secondary foundations with clear vocabulary and guided application.

By the end of this topic, you should be able to:

- use different handball techniques and tactics in a game situation and apply basic rules
- state different techniques of handball
- - Explain the role of playing in a team
- show one's role in a team
- interpret the rules of the game
- understand leadership

Inquiry questions:

- How can handball help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Handball: Learn

Handball becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.

Handball: Vocabulary And Study Skill

Use these words and study moves before you practise Handball. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Handball
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Handball without a clear example, method, or evidence.

Handball: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Handball.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Handball: Practice And Correction

Practice for Handball:

1. Plan, practise, or perform a safe creative or movement task that shows: use different handball techniques and tactics in a game situation and apply basic rules. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: state different techniques of handball. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: - Explain the role of playing in a team. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: show one's role in a team. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to handball and write two useful sentences about it.

Handball: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Handball.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Handball: Outcome Check

Show that you can use different handball techniques and tactics in a game situation and apply basic rules.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Handball: Outcome Check

Show that you can state different techniques of handball.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Goal ball: Lesson Opener

Learning focus: Goal ball

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Goal ball.

Progression focus: build lower-secondary foundations with clear vocabulary and guided application.

By the end of this topic, you should be able to:

- use different defensive and offensive techniques and tactics of goal ball and apply basic rules
- state different techniques of goal ball. - Explain and understand the importance of goal ball for one's body
- able to create individual techniques
- show respect for rules and regulations during the game
- basic goal ball equipment and techniques, tactics in offense/ attack in goal ball

Inquiry questions:

- How can goal ball help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Goal ball: Learn

Goal ball becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.

3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Goal ball: Vocabulary And Study Skill

Use these words and study moves before you practise Goal ball. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Goal ball
- Goal
- ball
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Goal ball without a clear example, method, or evidence.

Goal ball: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Goal ball.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Goal ball: Practice And Correction

Practice for Goal ball:

1. Plan, practise, or perform a safe creative or movement task that shows: use different defensive and offensive techniques and tactics of goal ball and apply basic rules. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: state different techniques of goal ball. - Explain and understand the importance of goal ball for one's body. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: able to create individual techniques. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: show respect for rules and regulations during the game. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to goal ball and write two useful sentences about it.

Goal ball: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Goal ball.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Goal ball: Outcome Check

Show that you can use different defensive and offensive techniques and tactics of goal ball and apply basic rules.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Goal ball: Outcome Check

Show that you can state different techniques of goal ball. - Explain and understand the importance of goal ball for one's body.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Sitting volleyball: Lesson Opener

Learning focus: Sitting volleyball

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Sitting volleyball.

Progression focus: build lower-secondary foundations with clear vocabulary and guided application.

By the end of this topic, you should be able to:

- use different defensive and offensive techniques and tactics of sitting volleyball and apply basic rules
- explain different types of sitting volleyball techniques and tactics and discuss their importance
- explain the reasons of playing sitting volleyball at individual, community, and national levels
- identify different equipment used in sitting volleyball
- describe how sitting volleyball can be performed in a safe, varied, effective,
- apply techniques and tactics to improve one's performance in sitting volleyball

Inquiry questions:

- How can sitting volleyball help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Sitting volleyball: Learn

Sitting volleyball becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.

4. Plan, practise, or perform a safe creative or movement task that shows: identify different equipment used in sitting volleyball. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to sitting volleyball and write two useful sentences about it.

Sitting volleyball: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Sitting volleyball.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Sitting volleyball: Outcome Check

Show that you can use different defensive and offensive techniques and tactics of sitting volleyball and apply basic rules.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Sitting volleyball: Outcome Check

Show that you can explain different types of sitting volleyball techniques and tactics and discuss their importance.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Netball: Lesson Opener

Learning focus: Netball

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Netball.

Progression focus: build lower-secondary foundations with clear vocabulary and guided application.

By the end of this topic, you should be able to:

- use different defensive and offensive techniques and tactics of netball and apply basic rules
- identify different types of netball techniques and tactics
- recognize techniques of playing netball
- introduction to basic netball techniques
- respond to the teacher's instructions
- plan, practise, perform, or create work related to netball

Inquiry questions:

- How can netball help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Netball: Learn

Netball becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Netball
- idea
- skill
- example
- practice
- correction

Netball: Worked Example

Evidence model for Netball: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Netball: Vocabulary And Study Skill

Use these words and study moves before you practise Netball. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Netball
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Netball without a clear example, method, or evidence.

Netball: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Netball.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Netball: Practice And Correction

Practice for Netball:

1. Plan, practise, or perform a safe creative or movement task that shows: use different defensive and offensive techniques and tactics of netball and apply basic rules. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: identify different types of netball techniques and tactics. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: recognize techniques of playing netball. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: introduction to basic netball techniques. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to netball and write two useful sentences about it.

Netball: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Netball.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Netball: Outcome Check

Show that you can use different defensive and offensive techniques and tactics of netball and apply basic rules.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Netball: Outcome Check

Show that you can identify different types of netball techniques and tactics.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Motor control: Plan

Practical workshop for Motor control: Plan.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Body control and balance: Materials And Safety

Practical workshop for Body control and balance: Materials And Safety.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Gymnastics: Skill Practice

Practical workshop for Gymnastics: Skill Practice.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Athletics: Create Or Perform

Practical workshop for Athletics: Create Or Perform.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Football: Peer Feedback

Practical workshop for Football: Peer Feedback.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Volleyball: Improve And Reflect

Practical workshop for Volleyball: Improve And Reflect.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Basketball: Plan

Practical workshop for Basketball: Plan.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Motor control: Review Clinic 1

Use this review clinic to strengthen Physical Education and Sports without copying earlier answers.

1. Choose one idea from Motor control that was difficult.
2. Explain the idea in your own words.
3. Make one new example from Rwanda.
4. Create one question that checks knowledge.
5. Create one question that checks skill or application.
6. Answer both questions and correct your work.

Challenge: Turn the idea into a drawing, table, map, dialogue, model, demonstration, or worked solution.

Body control and balance: Review Clinic 2

Use this review clinic to strengthen Physical Education and Sports without copying earlier answers.

1. Choose one idea from Body control and balance that was difficult.
2. Explain the idea in your own words.
3. Make one new example from Rwanda.
4. Create one question that checks knowledge.
5. Create one question that checks skill or application.
6. Answer both questions and correct your work.

Challenge: Turn the idea into a drawing, table, map, dialogue, model, demonstration, or worked solution.

Gymnastics: Review Clinic 3

Use this review clinic to strengthen Physical Education and Sports without copying earlier answers.

1. Choose one idea from Gymnastics that was difficult.
2. Explain the idea in your own words.
3. Make one new example from Rwanda.
4. Create one question that checks knowledge.
5. Create one question that checks skill or application.
6. Answer both questions and correct your work.

Challenge: Turn the idea into a drawing, table, map, dialogue, model, demonstration, or worked solution.

Athletics: Review Clinic 4

Use this review clinic to strengthen Physical Education and Sports without copying earlier answers.

1. Choose one idea from Athletics that was difficult.
2. Explain the idea in your own words.
3. Make one new example from Rwanda.
4. Create one question that checks knowledge.
5. Create one question that checks skill or application.
6. Answer both questions and correct your work.

Challenge: Turn the idea into a drawing, table, map, dialogue, model, demonstration, or worked solution.

Glossary

Use this glossary to revise important words in Physical Education and Sports.

- Motor control: Explain this term using an example from the book, your school, or your community.
- Body control and balance: Explain this term using an example from the book, your school, or your community.
- Gymnastics: Explain this term using an example from the book, your school, or your community.
- Athletics: Explain this term using an example from the book, your school, or your community.
- Football: Explain this term using an example from the book, your school, or your community.
- Volleyball: Explain this term using an example from the book, your school, or your community.
- Basketball: Explain this term using an example from the book, your school, or your community.
- Handball: Explain this term using an example from the book, your school, or your community.
- Goal ball: Explain this term using an example from the book, your school, or your community.
- Sitting volleyball: Explain this term using an example from the book, your school, or your community.
- Netball: Explain this term using an example from the book, your school, or your community.

Add five more words from your lessons and write your own meanings.

Answer And Teacher Notes

A strong Physical Education and Sports answer responds to the exact task, uses correct vocabulary, gives a clear example or evidence, and shows correction after feedback. For practical work, name materials, safety, process, quality checks, peer feedback, and one improvement made after review.

Final Project

Create a final project for Physical Education and Sports that shows what you can now do independently.

Your project must include:

1. A clear title.
2. A real-life problem, question, text, performance, investigation, design, or worked task.
3. Evidence from at least three lessons in this book.
4. A drawing, table, map, chart, model, dialogue, paragraph, performance plan, practical product, or worked solution.
5. A correction note showing one improvement after feedback.
6. A short reflection explaining what you learned, what was difficult, and what you will practise next.

Presentation check: keep the work neat, label important parts, use correct vocabulary, and be ready to explain your choices to a classmate or teacher.
