KITABU QUEST S2 Physical Education and Sports

Rwanda REB-CBC learner book

Mascot: impala

This KITABU QUEST book turns the curriculum into short lessons, worked examples, guided activities, practice, review, and home links for Rwanda learners.

How To Use This Book

This book helps S2 learners study Physical Education and Sports one teachable topic at a time.

1. Start with the inquiry question and say what you already know.
2. Read the Learn section slowly and mark new words.
3. Try the worked example before reading the full solution.
4. Complete the activity and practice tasks.
5. Correct your answer using the success criteria.
6. Ask for support when your answer is still unclear.

Subject method: Learn through examples, activities, practice, and reflection.

Learning Skills In This Book

Each topic builds knowledge, skill, values, communication, collaboration, critical thinking, creativity, digital awareness, and self-confidence.

Study actively: speak answers aloud, draw when useful, show your working, cite evidence, use local examples, and correct mistakes after feedback.

A strong answer is specific. It names the idea, gives evidence or method, applies it to the task, and checks whether it answers the question.

Table Of Contents

Use this table to move through the book one topic at a time. Each topic has a lesson opener, clear teaching, a model or example, guided work, practice, and checks for understanding.

1. Motor control
2. Body control and Balance
3. Gymnastic
4. Athletics
5. Football
6. Volleyball
7. Basketball
8. Handball
9. Goal ball
10. Sitting volleyball
11. Netball

As you finish each topic, return to the success criteria and correct one answer before moving on.

Motor control: Lesson Opener

Learning focus: Motor control

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Motor control.

Progression focus: connect ideas across topics and explain causes, methods, or consequences.

By the end of this topic, you should be able to:

- develop physical exercise routines and advise how to apply them
- define and explain the role of physical exercises in body development
- understand the importance of physical activities in body fitness. □ Recall the importance of safe and responsible engagement in physical activities
- to create exercises based on healthy living
- to evaluate the role of motor control when practicing physical sports activities
- to be Creative when performing different physical exercises

Inquiry questions:

- How can motor control help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Motor control: Learn

Motor control becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Motor control
- Motor
- control
- idea
- skill
- example
- practice
- correction

Motor control: Worked Example

Evidence model for Motor control: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Motor control: Vocabulary And Study Skill

Use these words and study moves before you practise Motor control. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Motor control
- Motor
- control
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Motor control without a clear example, method, or evidence.

Motor control: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Motor control.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Motor control: Practice And Correction

Practice for Motor control:

1. Plan, practise, or perform a safe creative or movement task that shows: develop physical exercise routines and advise how to apply them. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: define and explain the role of physical exercises in body development. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: understand the importance of physical activities in body fitness. □ Recall the importance of safe and responsible engagement in physical activities. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: to create exercises based on healthy living. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to motor control and write two useful sentences about it.

Motor control: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Motor control.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Motor control: Outcome Check

Show that you can develop physical exercise routines and advise how to apply them.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Motor control: Outcome Check

Show that you can define and explain the role of physical exercises in body development.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Body control and Balance: Lesson Opener

Learning focus: Body control and Balance

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Body control and Balance.

Progression focus: connect ideas across topics and explain causes, methods, or consequences.

By the end of this topic, you should be able to:

- express one self and communicate through a variety of exercises
- explain the importance of communication during physical activities
- plan, practise, perform, or create work related to body control and balance
- demonstrate the elements of movements during dancing activities
- self-expression via dance

Inquiry questions:

- How can body control and balance help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Body control and Balance: Learn

Body control and Balance becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Body control and Balance
- Body
- control
- Balance
- idea
- skill
- example
- practice

Body control and Balance: Worked Example

Evidence model for Body control and Balance: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Body control and Balance: Vocabulary And Study Skill

Use these words and study moves before you practise Body control and Balance. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Body control and Balance
- Body
- control
- Balance
- idea

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Body control and Balance without a clear example, method, or evidence.

Body control and Balance: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Body control and Balance.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Body control and Balance: Practice And Correction

Practice for Body control and Balance:

1. Plan, practise, or perform a safe creative or movement task that shows: express one self and communicate through a variety of exercises. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: explain the importance of communication during physical activities. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: plan, practise, perform, or create work related to body control and balance. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: demonstrate the elements of movements during dancing activities. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to body control and balance and write two useful sentences about it.

Body control and Balance: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Body control and Balance.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Body control and Balance: Outcome Check

Show that you can express one self and communicate through a variety of exercises.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Body control and Balance: Outcome Check

Show that you can explain the importance of communication during physical activities.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Gymnastic: Lesson Opener

Learning focus: Gymnastic

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Gymnastic.

Progression focus: connect ideas across topics and explain causes, methods, or consequences.

By the end of this topic, you should be able to:

- perform gymnastic movements
- identify ground exercises to apparatus exercises
- describe the movement of any gymnastic action
- able to analyze various gymnastics actions performed on the ground
- able to carry out different ground and apparatus exercises
- demonstrate the best way of making different gymnastic movements

Inquiry questions:

- How can gymnastic help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Gymnastic: Learn

Gymnastic becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Gymnastic
- idea
- skill
- example
- practice
- correction

Gymnastic: Worked Example

Evidence model for Gymnastic: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Gymnastic: Vocabulary And Study Skill

Use these words and study moves before you practise Gymnastic. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Gymnastic
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Gymnastic without a clear example, method, or evidence.

Gymnastic: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Gymnastic.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Gymnastic: Practice And Correction

Practice for Gymnastic:

1. Plan, practise, or perform a safe creative or movement task that shows: perform gymnastic movements. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: identify ground exercises to apparatus exercises. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: describe the movement of any gymnastic action. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: able to analyze various gymnastics actions perform ne on the ground. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to gymnastic and write two useful sentences about it.

Gymnastic: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Gymnastic.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Gymnastic: Outcome Check

Show that you can perform gymnastic movements.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Gymnastic: Outcome Check

Show that you can identify ground exercises to apparatus exercises.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Athletics: Lesson Opener

Learning focus: Athletics

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Athletics.

Progression focus: connect ideas across topics and explain causes, methods, or consequences.

By the end of this topic, you should be able to:

- develop different types of running, jumping, and throwing techniques and abilities
- plan, practise, perform, or create work related to athletics
- perform sprint, relay, hurdle, resistance and endurance exercises
- develop self- confidence
- improve self-control
- running races with respect to different starting signals

Inquiry questions:

- How can athletics help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Athletics: Learn

Athletics becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Athletics
- idea
- skill
- example
- practice
- correction

Athletics: Worked Example

Evidence model for Athletics: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Athletics: Vocabulary And Study Skill

Use these words and study moves before you practise Athletics. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Athletics
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Athletics without a clear example, method, or evidence.

Athletics: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Athletics.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Athletics: Practice And Correction

Practice for Athletics:

1. Plan, practise, or perform a safe creative or movement task that shows: develop different types of running, jumping, and throwing techniques and abilities. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: plan, practise, perform, or create work related to athletics. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: perform sprint, relay, hurdle, resistance and endurance exercises. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: develop self- confidence. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to athletics and write two useful sentences about it.

Athletics: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Athletics.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Athletics: Outcome Check

Show that you can develop different types of running, jumping, and throwing techniques and abilities.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Athletics: Outcome Check

Show that you can plan, practise, perform, or create work related to athletics.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Football: Lesson Opener

Learning focus: Football

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Football.

Progression focus: connect ideas across topics and explain causes, methods, or consequences.

By the end of this topic, you should be able to:

- apply various defensive and offensive strategies and techniques during a football game
- describe different techniques of defensive and offensive football strategies
- express the role of playing as a team member
- discuss the role of leadership in achieving goals
- use different football technical and tactical
- able to referee a game

Inquiry questions:

- How can football help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Football: Learn

Football becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Football
- idea
- skill
- example
- practice
- correction

Football: Worked Example

Evidence model for Football: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Football: Vocabulary And Study Skill

Use these words and study moves before you practise Football. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Football
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Football without a clear example, method, or evidence.

Football: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Football.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Football: Practice And Correction

Practice for Football:

1. Plan, practise, or perform a safe creative or movement task that shows: apply various defensive and offensive strategies and techniques during a football game. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: describe different techniques of defensive and offensive football strategies. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: express the role of playing as a team member. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: discuss the role of leadership in achieving goals. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to football and write two useful sentences about it.

Football: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Football.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Football: Outcome Check

Show that you can apply various defensive and offensive strategies and techniques during a football game.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Football: Outcome Check

Show that you can describe different techniques of defensive and offensive football strategies.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Volleyball: Lesson Opener

Learning focus: Volleyball

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Volleyball.

Progression focus: connect ideas across topics and explain causes, methods, or consequences.

By the end of this topic, you should be able to:

- use different defensive and offensive volleyball techniques in various game situations and apply basic rules
- explain different techniques and tactics of volleyball
- demonstrate different techniques of volleyball
- cooperate with others

Inquiry questions:

- How can volleyball help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Volleyball: Learn

Volleyball becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Volleyball
- idea
- skill
- example

Volleyball: Worked Example

Evidence model for Volleyball: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Volleyball: Vocabulary And Study Skill

Use these words and study moves before you practise Volleyball. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Volleyball
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Volleyball without a clear example, method, or evidence.

Volleyball: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Volleyball.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Volleyball: Practice And Correction

Practice for Volleyball:

1. Plan, practise, or perform a safe creative or movement task that shows: use different defensive and offensive volleyball techniques in various game situations and apply basic rules. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: explain different techniques and tactics of volleyball. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: demonstrate different techniques of volleyball. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: cooperate with others. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to volleyball and write two useful sentences about it.

Volleyball: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Volleyball.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Volleyball: Outcome Check

Show that you can use different defensive and offensive volleyball techniques in various game situations and apply basic rules.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Volleyball: Outcome Check

Show that you can explain different techniques and tactics of volleyball.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Basketball: Lesson Opener

Learning focus: Basketball

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Basketball.

Progression focus: connect ideas across topics and explain causes, methods, or consequences.

By the end of this topic, you should be able to:

- use different defensive and offensive basketball techniques in various game situations and interpret rules of the game
- to recall and describe various basketball techniques and tactics
- describe different offensive and defensive strategies used in basketball
- understand leadership and the qualities of good leaders in playing basketball
- perform different exercises that enhance techniques and tactics used in basketball
- combine offensive and defensive skills and tactics in game situations

Inquiry questions:

- How can basketball help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Basketball: Learn

Basketball becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Basketball
- idea
- skill
- example
- practice
- correction

Basketball: Worked Example

Evidence model for Basketball: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Basketball: Vocabulary And Study Skill

Use these words and study moves before you practise Basketball. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Basketball
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Basketball without a clear example, method, or evidence.

Basketball: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Basketball.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Basketball: Practice And Correction

Practice for Basketball:

1. Plan, practise, or perform a safe creative or movement task that shows: use different defensive and offensive basketball techniques in various game situations and interpret rules of the game. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: to recall and describe various basketball techniques and tactics. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: describe different offensive and defensive strategies used in basketball. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: understand leadership and the qualities of good leaders in playing basketball. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to basketball and write two useful sentences about it.

Basketball: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Basketball.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Basketball: Outcome Check

Show that you can use different defensive and offensive basketball techniques in various game situations and interpret rules of the game.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Basketball: Outcome Check

Show that you can to recall and describe various basketball techniques and tactics.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Handball: Lesson Opener

Learning focus: Handball

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Handball.

Progression focus: connect ideas across topics and explain causes, methods, or consequences.

By the end of this topic, you should be able to:

- use different defensive and offensive handball techniques in various game situations and interpret the rules of the game
- to recall and describe various handball techniques and tactics
- describe different offensive and defensive strategies and techniques
- identify different sections of the game, fouls, and penalties
- understand leadership and the qualities of good leaders in playing handball
- perform different exercises that enhances passing, receiving, dribbling, and throwing in standing position or while moving. Combine offensive and defensive situations

Inquiry questions:

- How can handball help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Handball: Learn

Handball becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Handball
- idea
- skill
- example
- practice
- correction

Handball: Worked Example

Evidence model for Handball: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Handball: Vocabulary And Study Skill

Use these words and study moves before you practise Handball. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Handball
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Handball without a clear example, method, or evidence.

Handball: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Handball.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Handball: Practice And Correction

Practice for Handball:

1. Plan, practise, or perform a safe creative or movement task that shows: use different defensive and offensive handball techniques in various game situations and interpret the rules of the game. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: to recall and describe various handball techniques and tactics. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: describe different offensive and defensive strategies and techniques. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: identify different sections of the game, fouls, and penalties. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to handball and write two useful sentences about it.

Handball: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Handball.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Handball: Outcome Check

Show that you can use different defensive and offensive handball techniques in various game situations and interpret the rules of the game.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Handball: Outcome Check

Show that you can to recall and describe various handball techniques and tactics.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Goal ball: Lesson Opener

Learning focus: Goal ball

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Goal ball.

Progression focus: connect ideas across topics and explain causes, methods, or consequences.

By the end of this topic, you should be able to:

- to apply techniques and tactics of goal ball and adhere to rules of the game
- identify technical skills required for playing Goal ball
- describe how goal ball can be played in a safe, varied, effective, and enjoyable way
- able to apply different techniques and tactics of goal ball in game situation
- analyze and deploy tactics to be used in order to win or perform well
- able to make a research on the Internet on the rules, techniques and tactics used in goal ball

Inquiry questions:

- How can goal ball help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Goal ball: Learn

Goal ball becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Goal ball
- Goal
- ball
- idea
- skill
- example
- practice
- correction

Goal ball: Worked Example

Evidence model for Goal ball: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Goal ball: Vocabulary And Study Skill

Use these words and study moves before you practise Goal ball. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Goal ball
- Goal
- ball
- idea
- skill

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Goal ball without a clear example, method, or evidence.

Goal ball: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Goal ball.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Goal ball: Practice And Correction

Practice for Goal ball:

1. Plan, practise, or perform a safe creative or movement task that shows: to apply techniques and tactics of goal ball and adhere to rules of the game. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: identify technical skills required for playing Goal ball. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: describe how goal ball can be played in a safe, varied, effective, and enjoyable way. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: able to apply different techniques and tactics of goal ball in game situation. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to goal ball and write two useful sentences about it.

Goal ball: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Goal ball.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Goal ball: Outcome Check

Show that you can to apply techniques and tactics of goal ball and adhere to rules of the game.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Goal ball: Outcome Check

Show that you can identify technical skills required for playing Goal ball.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Sitting volleyball: Lesson Opener

Learning focus: Sitting volleyball

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Sitting volleyball.

Progression focus: connect ideas across topics and explain causes, methods, or consequences.

By the end of this topic, you should be able to:

- use different defensive and offensive techniques and tactics of sitting volleyball and respect rules
- identify technical skills and tactics required for playing sitting volleyball game
- able to apply different techniques and tactics of sitting
- improve self- discipline and self- control
- techniques and tactics of attack
- plan, practise, perform, or create work related to sitting volleyball

Inquiry questions:

- How can sitting volleyball help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Sitting volleyball: Learn

Sitting volleyball becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.

5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Sitting volleyball: Practice And Correction

Practice for Sitting volleyball:

1. Plan, practise, or perform a safe creative or movement task that shows: use different defensive and offensive techniques and tactics of sitting volleyball and respect rules. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: identify technical skills and tactics required for playing sitting volleyball game. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: able to apply different techniques and tactics of sitting. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: improve self- discipline and self- control. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to sitting volleyball and write two useful sentences about it.

Sitting volleyball: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Sitting volleyball.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Sitting volleyball: Outcome Check

Show that you can use different defensive and offensive techniques and tactics of sitting volleyball and respect rules.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Sitting volleyball: Outcome Check

Show that you can identify technical skills and tactics required for playing sitting volleyball game.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Netball: Lesson Opener

Learning focus: Netball

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Netball.

Progression focus: connect ideas across topics and explain causes, methods, or consequences.

By the end of this topic, you should be able to:

- apply techniques, tactics, and basic rules of netball
- identify technical skills and tactics required for playing netball game
- recognize different types of netball techniques and tactics
- describe how netball can be played in a safe, varied, effective, and enjoyable way
- able to apply different techniques and tactics of netball in game situation
- analyze and deploy tactics to be used in order to win or perform well

Inquiry questions:

- How can netball help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Netball: Learn

Netball becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Netball
- idea
- skill
- example
- practice
- correction

Netball: Worked Example

Evidence model for Netball: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Netball: Vocabulary And Study Skill

Use these words and study moves before you practise Netball. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Netball
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Netball without a clear example, method, or evidence.

Netball: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Netball.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Netball: Practice And Correction

Practice for Netball:

1. Plan, practise, or perform a safe creative or movement task that shows: apply techniques, tactics, and basic rules of netball. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: identify technical skills and tactics required for playing netball game. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: recognize different types of netball techniques and tactics. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: describe how netball can be played in a safe, varied, effective, and enjoyable way. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to netball and write two useful sentences about it.

Netball: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Netball.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Netball: Outcome Check

Show that you can apply techniques, tactics, and basic rules of netball.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Netball: Outcome Check

Show that you can identify technical skills and tactics required for playing netball game.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Motor control: Plan

Practical workshop for Motor control: Plan.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Body control and Balance: Materials And Safety

Practical workshop for Body control and Balance: Materials And Safety.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Gymnastic: Skill Practice

Practical workshop for Gymnastic: Skill Practice.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Athletics: Create Or Perform

Practical workshop for Athletics: Create Or Perform.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Football: Peer Feedback

Practical workshop for Football: Peer Feedback.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Volleyball: Improve And Reflect

Practical workshop for Volleyball: Improve And Reflect.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Basketball: Plan

Practical workshop for Basketball: Plan.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Motor control: Review Clinic 1

Use this review clinic to strengthen Physical Education and Sports without copying earlier answers.

1. Choose one idea from Motor control that was difficult.
2. Explain the idea in your own words.
3. Make one new example from Rwanda.
4. Create one question that checks knowledge.
5. Create one question that checks skill or application.
6. Answer both questions and correct your work.

Challenge: Turn the idea into a drawing, table, map, dialogue, model, demonstration, or worked solution.

Body control and Balance: Review Clinic 2

Use this review clinic to strengthen Physical Education and Sports without copying earlier answers.

1. Choose one idea from Body control and Balance that was difficult.
2. Explain the idea in your own words.
3. Make one new example from Rwanda.
4. Create one question that checks knowledge.
5. Create one question that checks skill or application.
6. Answer both questions and correct your work.

Challenge: Turn the idea into a drawing, table, map, dialogue, model, demonstration, or worked solution.

Gymnastic: Review Clinic 3

Use this review clinic to strengthen Physical Education and Sports without copying earlier answers.

1. Choose one idea from Gymnastic that was difficult.
2. Explain the idea in your own words.
3. Make one new example from Rwanda.
4. Create one question that checks knowledge.
5. Create one question that checks skill or application.
6. Answer both questions and correct your work.

Challenge: Turn the idea into a drawing, table, map, dialogue, model, demonstration, or worked solution.

Athletics: Review Clinic 4

Use this review clinic to strengthen Physical Education and Sports without copying earlier answers.

1. Choose one idea from Athletics that was difficult.
2. Explain the idea in your own words.
3. Make one new example from Rwanda.
4. Create one question that checks knowledge.
5. Create one question that checks skill or application.
6. Answer both questions and correct your work.

Challenge: Turn the idea into a drawing, table, map, dialogue, model, demonstration, or worked solution.

Glossary

Use this glossary to revise important words in Physical Education and Sports.

- Motor control: Explain this term using an example from the book, your school, or your community.
- Body control and Balance: Explain this term using an example from the book, your school, or your community.
- Gymnastic: Explain this term using an example from the book, your school, or your community.
- Athletics: Explain this term using an example from the book, your school, or your community.
- Football: Explain this term using an example from the book, your school, or your community.
- Volleyball: Explain this term using an example from the book, your school, or your community.
- Basketball: Explain this term using an example from the book, your school, or your community.
- Handball: Explain this term using an example from the book, your school, or your community.
- Goal ball: Explain this term using an example from the book, your school, or your community.
- Sitting volleyball: Explain this term using an example from the book, your school, or your community.
- Netball: Explain this term using an example from the book, your school, or your community.

Add five more words from your lessons and write your own meanings.

Answer And Teacher Notes

A strong Physical Education and Sports answer responds to the exact task, uses correct vocabulary, gives a clear example or evidence, and shows correction after feedback. For practical work, name materials, safety, process, quality checks, peer feedback, and one improvement made after review.

Final Project

Create a final project for Physical Education and Sports that shows what you can now do independently.

Your project must include:

1. A clear title.
2. A real-life problem, question, text, performance, investigation, design, or worked task.
3. Evidence from at least three lessons in this book.
4. A drawing, table, map, chart, model, dialogue, paragraph, performance plan, practical product, or worked solution.
5. A correction note showing one improvement after feedback.
6. A short reflection explaining what you learned, what was difficult, and what you will practise next.

Presentation check: keep the work neat, label important parts, use correct vocabulary, and be ready to explain your choices to a classmate or teacher.
