KITABU QUEST S3 Physical Education and Sports

Rwanda REB-CBC learner book

Mascot: impala

This KITABU QUEST book turns the curriculum into short lessons, worked examples, guided activities, practice, review, and home links for Rwanda learners.

How To Use This Book

This book helps S3 learners study Physical Education and Sports one teachable topic at a time.

1. Start with the inquiry question and say what you already know.
2. Read the Learn section slowly and mark new words.
3. Try the worked example before reading the full solution.
4. Complete the activity and practice tasks.
5. Correct your answer using the success criteria.
6. Ask for support when your answer is still unclear.

Subject method: Learn through examples, activities, practice, and reflection.

Learning Skills In This Book

Each topic builds knowledge, skill, values, communication, collaboration, critical thinking, creativity, digital awareness, and self-confidence.

Study actively: speak answers aloud, draw when useful, show your working, cite evidence, use local examples, and correct mistakes after feedback.

A strong answer is specific. It names the idea, gives evidence or method, applies it to the task, and checks whether it answers the question.

Table Of Contents

Use this table to move through the book one topic at a time. Each topic has a lesson opener, clear teaching, a model or example, guided work, practice, and checks for understanding.

1. Physical conditioning
2. Athletics
3. Football
4. Volleyball
5. Basketball
6. Handball
7. Adapted Sports
8. Netball

As you finish each topic, return to the success criteria and correct one answer before moving on.

Physical conditioning: Lesson Opener

Learning focus: Physical conditioning

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Physical conditioning.

Progression focus: apply ideas to unfamiliar situations and justify decisions with evidence.

By the end of this topic, you should be able to:

- perform muscular exercises and gymnastic movement with agility and flexibility
- define and explain the role of physical exercises in body development
- understand the importance of physical activities in body fitness
- recall the importance of safe and responsible engagement in physical activities
- to create exercises based on healthy living
- to evaluate the role of good leadership when practicing physical sports activities

Inquiry questions:

- How can physical conditioning help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Physical conditioning: Learn

Physical conditioning becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Physical conditioning
- Physical
- conditioning
- idea
- skill
- example
- practice
- correction

Physical conditioning: Worked Example

Evidence model for Physical conditioning: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Physical conditioning: Vocabulary And Study Skill

Use these words and study moves before you practise Physical conditioning. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Physical conditioning
- Physical
- conditioning
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Physical conditioning without a clear example, method, or evidence.

Physical conditioning: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Physical conditioning.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Physical conditioning: Practice And Correction

Practice for Physical conditioning:

1. Plan, practise, or perform a safe creative or movement task that shows: perform muscular exercises and gymnastic movement with agility and flexibility. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: define and explain the role of physical exercises in body development. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: understand the importance of physical activities in body fitness. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: recall the importance of safe and responsible engagement in physical activities. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to physical conditioning and write two useful sentences about it.

Physical conditioning: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Physical conditioning.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Physical conditioning: Outcome Check

Show that you can perform muscular exercises and gymnastic movement with agility and flexibility.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Physical conditioning: Outcome Check

Show that you can define and explain the role of physical exercises in body development.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Athletics: Lesson Opener

Learning focus: Athletics

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Athletics.

Progression focus: apply ideas to unfamiliar situations and justify decisions with evidence.

By the end of this topic, you should be able to:

- to refine different types of running, jumping, and throwing techniques
- state and describe different Athletic techniques and tactics
- interpret athletic rules
- perfectly execute different running styles according to the rules
- recognize and understand the role of leadership in sports events and organizations

Inquiry questions:

- How can athletics help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Athletics: Learn

Athletics becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Athletics
- idea
- skill
- example
- practice
- correction

Athletics: Worked Example

Evidence model for Athletics: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Athletics: Vocabulary And Study Skill

Use these words and study moves before you practise Athletics. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Athletics
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Athletics without a clear example, method, or evidence.

Athletics: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Athletics.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Athletics: Practice And Correction

Practice for Athletics:

1. Plan, practise, or perform a safe creative or movement task that shows: to refine different types of running, jumping, and throwing techniques. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: state and describe different Athletic techniques and tactics. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: interpret athletic rules. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: perfectly execute different running styles according to the rules. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to athletics and write two useful sentences about it.

Athletics: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Athletics.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Athletics: Outcome Check

Show that you can to refine different types of running, jumping, and throwing techniques.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Athletics: Outcome Check

Show that you can state and describe different Athletic techniques and tactics.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Football: Lesson Opener

Learning focus: Football

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Football.

Progression focus: apply ideas to unfamiliar situations and justify decisions with evidence.

By the end of this topic, you should be able to:

- refine defensive and offensive strategies and techniques used in football and adhere to rules of the game
- explain the role of referees in managing sports/games and ensuring fair and organized play
- describe the roles of referees and assistant referees
- recall technical gestures
- understand the importance of mastering rules in team success
- analyze different rules of the game

Inquiry questions:

- How can football help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Football: Learn

Football becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Football
- idea
- skill
- example
- practice
- correction

Football: Worked Example

Evidence model for Football: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Football: Vocabulary And Study Skill

Use these words and study moves before you practise Football. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Football
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Football without a clear example, method, or evidence.

Football: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Football.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Football: Practice And Correction

Practice for Football:

1. Plan, practise, or perform a safe creative or movement task that shows: refine defensive and offensive strategies and techniques used in football and adhere to rules of the game. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: explain the role of referees in managing sports/games and ensuring fair and organized play. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: describe the roles of referees and assistant referees. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: recall technical gestures. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to football and write two useful sentences about it.

Football: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Football.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Football: Outcome Check

Show that you can refine defensive and offensive strategies and techniques used in football and adhere to rules of the game.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Football: Outcome Check

Show that you can explain the role of referees in managing sports/games and ensuring fair and organized play.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Volleyball: Lesson Opener

Learning focus: Volleyball

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Volleyball.

Progression focus: apply ideas to unfamiliar situations and justify decisions with evidence.

By the end of this topic, you should be able to:

- refine technical and tactical volleyball skills and adhere to rules of the game
- recall volleyball technical and tactical skills
- understand volleyball rules
- understand the roles different team members play
- know different net heights based on age
- understand fouls and penalties

Inquiry questions:

- How can volleyball help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Volleyball: Learn

Volleyball becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Volleyball
- idea
- skill
- example
- practice
- correction

Volleyball: Worked Example

Evidence model for Volleyball: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Volleyball: Vocabulary And Study Skill

Use these words and study moves before you practise Volleyball. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Volleyball
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Volleyball without a clear example, method, or evidence.

Volleyball: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Volleyball.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Volleyball: Practice And Correction

Practice for Volleyball:

1. Plan, practise, or perform a safe creative or movement task that shows: refine technical and tactical volleyball skills and adhere to rules of the game. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: recall volleyball technical and tactical skills. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: understand volleyball rules. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: understand the roles different team members play. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to volleyball and write two useful sentences about it.

Volleyball: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Volleyball.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Volleyball: Outcome Check

Show that you can refine technical and tactical volleyball skills and adhere to rules of the game.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Volleyball: Outcome Check

Show that you can recall volleyball technical and tactical skills.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Basketball: Lesson Opener

Learning focus: Basketball

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Basketball.

Progression focus: apply ideas to unfamiliar situations and justify decisions with evidence.

By the end of this topic, you should be able to:

- refine defensive and offensive basketball techniques in various game situations and adhere to rules of the game
- explain different techniques and tactics of basketball
- demonstrate different techniques of basketball
- cooperate with others
- basketball tactics and techniques in attack (count attack: fast break)
- plan, practise, perform, or create work related to basketball

Inquiry questions:

- How can basketball help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Basketball: Learn

Basketball becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Basketball
- idea
- skill
- example
- practice
- correction

Basketball: Worked Example

Evidence model for Basketball: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Basketball: Vocabulary And Study Skill

Use these words and study moves before you practise Basketball. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Basketball
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Basketball without a clear example, method, or evidence.

Basketball: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Basketball.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Basketball: Practice And Correction

Practice for Basketball:

1. Plan, practise, or perform a safe creative or movement task that shows: refine defensive and offensive basketball techniques in various game situations and adhere to rules of the game. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: explain different techniques and tactics of basketball. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: demonstrate different techniques of basketball. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: cooperate with others. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to basketball and write two useful sentences about it.

Basketball: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Basketball.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Basketball: Outcome Check

Show that you can refine defensive and offensive basketball techniques in various game situations and adhere to rules of the game.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Basketball: Outcome Check

Show that you can explain different techniques and tactics of basketball.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Handball: Lesson Opener

Learning focus: Handball

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Handball.

Progression focus: apply ideas to unfamiliar situations and justify decisions with evidence.

By the end of this topic, you should be able to:

- refine defensive and offensive handball techniques in various game situations and adhere to rules of the game
- to recall and describe various handball techniques and tactics
- describe different offensive and defensive strategies and techniques
- identify different sections of the game, fouls, and penalties
- understand leadership and the qualities of good leaders in playing handball
- perform different exercises that enhance enhances passing, receiving, dribbling, and throwing in standing position or while moving

Inquiry questions:

- How can handball help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Handball: Learn

Handball becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Handball
- idea
- skill
- example
- practice
- correction

Handball: Worked Example

Evidence model for Handball: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Handball: Vocabulary And Study Skill

Use these words and study moves before you practise Handball. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Handball
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Handball without a clear example, method, or evidence.

Handball: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Handball.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Handball: Practice And Correction

Practice for Handball:

1. Plan, practise, or perform a safe creative or movement task that shows: refine defensive and offensive handball techniques in various game situations and adhere to rules of the game. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: to recall and describe various handball techniques and tactics. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: describe different offensive and defensive strategies and techniques. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: identify different sections of the game, fouls, and penalties. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to handball and write two useful sentences about it.

Handball: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Handball.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Handball: Outcome Check

Show that you can refine defensive and offensive handball techniques in various game situations and adhere to rules of the game.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Handball: Outcome Check

Show that you can recall and describe various handball techniques and tactics.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Adapted Sports: Lesson Opener

Learning focus: Adapted Sports

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Adapted Sports.

Progression focus: apply ideas to unfamiliar situations and justify decisions with evidence.

By the end of this topic, you should be able to:

- to apply techniques and tactics of adaptive sports and adhere to rules of the game
- identify technical skills required for playing Goal ball and Sitting volleyball game
- recognize different types of goal ball and sitting volleyball techniques and tactics
- describe how goal ball and sitting volleyball can be played in a safe, varied, effective, and enjoyable way
- able to apply different techniques and tactics of goal ball and sitting volleyball in game situation
- evaluate an opponent's, team members' and one's own performance while playing a game or during practice

Inquiry questions:

- How can adapted sports help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Adapted Sports: Learn

Adapted Sports becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Adapted Sports
- Adapted
- Sports
- idea
- skill
- example
- practice
- correction

Adapted Sports: Worked Example

Evidence model for Adapted Sports: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Adapted Sports: Vocabulary And Study Skill

Use these words and study moves before you practise Adapted Sports. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Adapted Sports
- Adapted
- Sports
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Adapted Sports without a clear example, method, or evidence.

Adapted Sports: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Adapted Sports.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Adapted Sports: Practice And Correction

Practice for Adapted Sports:

1. Plan, practise, or perform a safe creative or movement task that shows: to apply techniques and tactics of adaptive sports and adhere to rules of the game. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: identify technical skills required for playing Goal ball and Sitting volleyball game. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: recognize different types of goal ball and sitting volleyball techniques and tactics. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: describe how goal ball and sitting volleyball can be played in a safe, varied, effective, and enjoyable way. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to adapted sports and write two useful sentences about it.

Adapted Sports: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Adapted Sports.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Adapted Sports: Outcome Check

Show that you can to apply techniques and tactics of adaptive sports and adhere to rules of the game.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Adapted Sports: Outcome Check

Show that you can identify technical skills required for playing Goal ball and Sitting volleyball game.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Netball: Lesson Opener

Learning focus: Netball

Country link: a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Netball.

Progression focus: apply ideas to unfamiliar situations and justify decisions with evidence.

By the end of this topic, you should be able to:

- refine defensive and offensive netball techniques in various game situations and adhere to rules of the game
- identify technical skills and tactics required for playing netball game
- recognize different types of netball techniques and tactics
- describe how netball can be played in a safe, varied, effective, and enjoyable way
- able to apply different techniques and tactics of netball in game situation
- evaluate an opponent's, team members' and one's own performance while playing a game or during practice

Inquiry questions:

- How can netball help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Netball: Learn

Netball becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Netball
- idea
- skill
- example
- practice
- correction

Netball: Worked Example

Evidence model for Netball: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Netball: Vocabulary And Study Skill

Use these words and study moves before you practise Netball. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Netball
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Netball without a clear example, method, or evidence.

Netball: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwandan creative, performance, movement, craft, artwork, or teamwork activity for Netball.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.

3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Netball: Outcome Check

Show that you can refine defensive and offensive netball techniques in various game situations and adhere to rules of the game.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Netball: Outcome Check

Show that you can identify technical skills and tactics required for playing netball game.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Physical conditioning: Plan

Practical workshop for Physical conditioning: Plan.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Athletics: Materials And Safety

Practical workshop for Athletics: Materials And Safety.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Football: Skill Practice

Practical workshop for Football: Skill Practice.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Volleyball: Create Or Perform

Practical workshop for Volleyball: Create Or Perform.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Basketball: Peer Feedback

Practical workshop for Basketball: Peer Feedback.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Handball: Improve And Reflect

Practical workshop for Handball: Improve And Reflect.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Physical conditioning: Plan

Practical workshop for Physical conditioning: Plan.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Athletics: Materials And Safety

Practical workshop for Athletics: Materials And Safety.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Football: Skill Practice

Practical workshop for Football: Skill Practice.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Volleyball: Create Or Perform

Practical workshop for Volleyball: Create Or Perform.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Basketball: Peer Feedback

Practical workshop for Basketball: Peer Feedback.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Handball: Improve And Reflect

Practical workshop for Handball: Improve And Reflect.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Adapted Sports: Plan

Practical workshop for Adapted Sports: Plan.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Netball: Materials And Safety

Practical workshop for Netball: Materials And Safety.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Physical conditioning: Review Clinic 1

Use this review clinic to strengthen Physical Education and Sports without copying earlier answers.

1. Choose one idea from Physical conditioning that was difficult.
2. Explain the idea in your own words.
3. Make one new example from Rwanda.
4. Create one question that checks knowledge.
5. Create one question that checks skill or application.
6. Answer both questions and correct your work.

Challenge: Turn the idea into a drawing, table, map, dialogue, model, demonstration, or worked solution.

Athletics: Review Clinic 2

Use this review clinic to strengthen Physical Education and Sports without copying earlier answers.

1. Choose one idea from Athletics that was difficult.
2. Explain the idea in your own words.
3. Make one new example from Rwanda.
4. Create one question that checks knowledge.
5. Create one question that checks skill or application.
6. Answer both questions and correct your work.

Challenge: Turn the idea into a drawing, table, map, dialogue, model, demonstration, or worked solution.

Football: Review Clinic 3

Use this review clinic to strengthen Physical Education and Sports without copying earlier answers.

1. Choose one idea from Football that was difficult.
2. Explain the idea in your own words.
3. Make one new example from Rwanda.
4. Create one question that checks knowledge.
5. Create one question that checks skill or application.
6. Answer both questions and correct your work.

Challenge: Turn the idea into a drawing, table, map, dialogue, model, demonstration, or worked solution.

Volleyball: Review Clinic 4

Use this review clinic to strengthen Physical Education and Sports without copying earlier answers.

1. Choose one idea from Volleyball that was difficult.
2. Explain the idea in your own words.
3. Make one new example from Rwanda.
4. Create one question that checks knowledge.
5. Create one question that checks skill or application.
6. Answer both questions and correct your work.

Challenge: Turn the idea into a drawing, table, map, dialogue, model, demonstration, or worked solution.

Glossary

Use this glossary to revise important words in Physical Education and Sports.

- Physical conditioning: Explain this term using an example from the book, your school, or your community.
- Athletics: Explain this term using an example from the book, your school, or your community.
- Football: Explain this term using an example from the book, your school, or your community.
- Volleyball: Explain this term using an example from the book, your school, or your community.
- Basketball: Explain this term using an example from the book, your school, or your community.
- Handball: Explain this term using an example from the book, your school, or your community.
- Adapted Sports: Explain this term using an example from the book, your school, or your community.
- Netball: Explain this term using an example from the book, your school, or your community.

Add five more words from your lessons and write your own meanings.

Answer And Teacher Notes

A strong Physical Education and Sports answer responds to the exact task, uses correct vocabulary, gives a clear example or evidence, and shows correction after feedback. For practical work, name materials, safety, process, quality checks, peer feedback, and one improvement made after review.

Final Project

Create a final project for Physical Education and Sports that shows what you can now do independently.

Your project must include:

1. A clear title.
2. A real-life problem, question, text, performance, investigation, design, or worked task.
3. Evidence from at least three lessons in this book.
4. A drawing, table, map, chart, model, dialogue, paragraph, performance plan, practical product, or worked solution.
5. A correction note showing one improvement after feedback.
6. A short reflection explaining what you learned, what was difficult, and what you will practise next.

Presentation check: keep the work neat, label important parts, use correct vocabulary, and be ready to explain your choices to a classmate or teacher.
