KITABU QUEST S4 Physical Education and Sports

Rwanda REB-CBC learner book

Mascot: impala

This KITABU QUEST book turns the curriculum into short lessons, worked examples, guided activities, practice, review, and home links for Rwanda learners.

How To Use This Book

This book helps S4 learners study Physical Education and Sports one teachable topic at a time.

1. Start with the inquiry question and say what you already know.
2. Read the Learn section slowly and mark new words.
3. Try the worked example before reading the full solution.
4. Complete the activity and practice tasks.
5. Correct your answer using the success criteria.
6. Ask for support when your answer is still unclear.

Subject method: Learn through examples, activities, practice, and reflection.

Learning Skills In This Book

Each topic builds knowledge, skill, values, communication, collaboration, critical thinking, creativity, digital awareness, and self-confidence.

Study actively: speak answers aloud, draw when useful, show your working, cite evidence, use local examples, and correct mistakes after feedback.

A strong answer is specific. It names the idea, gives evidence or method, applies it to the task, and checks whether it answers the question.

Table Of Contents

Use this table to move through the book one topic at a time. Each topic has a lesson opener, clear teaching, a model or example, guided work, practice, and checks for understanding.

1. Motor Control and movement
2. Gymnastics
3. Athletics
4. Football
5. Volleyball
6. Basketball
7. Handball

As you finish each topic, return to the success criteria and correct one answer before moving on.

Motor Control and movement: Lesson Opener

Learning focus: Motor Control and movement

Country link: a safe Rwanda creative, performance, movement, craft, artwork, or teamwork activity for Motor Control and movement.

By the end of this topic, you should be able to:

- the perform different warm up exercises and muscular reinforcement
- recognise the different types of warm up exercises
- recall the importance of warm up exercises and muscular reinforcement for whole body
- explain the reasons for a warm up and cool down to the respiratory and circulatory system
- apply different warm up and cool down exercises
- create an individual warm up and cool down exercises

Inquiry questions:

- How can motor control and movement help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Motor Control and movement: Learn

Motor Control and movement becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Motor Control and movement
- Motor
- Control
- movement
- idea
- skill
- example
- practice

Motor Control and movement: Worked Example

Evidence model for Motor Control and movement: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Motor Control and movement: Vocabulary And Study Skill

Use these words and study moves before you practise Motor Control and movement. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Motor Control and movement
- Motor
- Control
- movement
- idea
- skill
- example
- practice

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Motor Control and movement without a clear example, method, or evidence.

Motor Control and movement: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwanda creative, performance, movement, craft, artwork, or teamwork activity for Motor Control and movement.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Motor Control and movement: Practice And Correction

Practice for Motor Control and movement:

1. Plan, practise, or perform a safe creative or movement task that shows: the perform different warm up exercises and muscular reinforcement. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: recognise the different types of warm up exercises. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: recall the importance of warm up exercises and muscular reinforcement for whole body. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: explain the reasons for a warm up and cool down to the respiratory and circulatory system. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to motor control and movement and write two useful sentences about it.

Motor Control and movement: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Motor Control and movement.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Motor Control and movement: Outcome Check

Show that you can perform different warm up exercises and muscular reinforcement.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Motor Control and movement: Outcome Check

Show that you can recognise the different types of warm up exercises.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Gymnastics: Lesson Opener

Learning focus: Gymnastics

Country link: a safe Rwanda creative, performance, movement, craft, artwork, or teamwork activity for Gymnastics.

By the end of this topic, you should be able to:

- perform ground agility exercises with flexibility and with the equipment
- recognise the different types of gymnastic exercises
- recall the importance of gymnastics for his/her body
- explain the reasons of the gymnastic practices
- apply the gymnastic movement to improve one's agility and flexibility in daily life
- create individual cooperation in the team

Inquiry questions:

- How can gymnastics help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Gymnastics: Learn

Gymnastics becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Gymnastics
- idea
- skill
- example
- practice
- correction

Gymnastics: Worked Example

Evidence model for Gymnastics: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Gymnastics: Vocabulary And Study Skill

Use these words and study moves before you practise Gymnastics. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Gymnastics
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Gymnastics without a clear example, method, or evidence.

Gymnastics: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwanda creative, performance, movement, craft, artwork, or teamwork activity for Gymnastics.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Gymnastics: Practice And Correction

Practice for Gymnastics:

1. Plan, practise, or perform a safe creative or movement task that shows: the perform ground agility exercises with flexibility and with the equipment. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: recognise the different types of gymnastic exercises. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: recall the importance of gymnastics for his/her body. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: explain the reasons of the gymnastic practices. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to gymnastics and write two useful sentences about it.

Gymnastics: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Gymnastics.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Gymnastics: Outcome Check

Show that you can the perform ground agility exercises with flexibility and with the equipment.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Gymnastics: Outcome Check

Show that you can recognise the different types of gymnastic exercises.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Athletics: Lesson Opener

Learning focus: Athletics

Country link: a safe Rwanda creative, performance, movement, craft, artwork, or teamwork activity for Athletics.

By the end of this topic, you should be able to:

- the master in running, jumping and throwing techniques by using the rules
- recognise the different types of athletic techniques
- generalise the importance of athletics for his/her body
- state the reasons of athletic movements in the society
- apply the athletic movement to improve one's agility and flexibility in daily life
- create individual athletic movements

Inquiry questions:

- How can athletics help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Athletics: Learn

Athletics becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Athletics
- idea
- skill
- example
- practice

Athletics: Worked Example

Evidence model for Athletics: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Athletics: Vocabulary And Study Skill

Use these words and study moves before you practise Athletics. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Athletics
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Athletics without a clear example, method, or evidence.

Athletics: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwanda creative, performance, movement, craft, artwork, or teamwork activity for Athletics.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Athletics: Practice And Correction

Practice for Athletics:

1. Plan, practise, or perform a safe creative or movement task that shows: the master in running, jumping and throwing techniques by using the rules. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: recognise the different types of athletic techniques. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: generalise the importance of athletics for his/her body. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: state the reasons of athletic movements in the society. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to athletics and write two useful sentences about it.

Athletics: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Athletics.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Athletics: Outcome Check

Show that you can the master in running, jumping and throwing techniques by using the rules.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Athletics: Outcome Check

Show that you can recognise the different types of athletic techniques.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Football: Lesson Opener

Learning focus: Football

Country link: a safe Rwanda creative, performance, movement, craft, artwork, or teamwork activity for Football.

By the end of this topic, you should be able to:

- the learners should be able to apply tactics and technical gestures of football in attack and defence in a regular game situation
- recognise the different types of football techniques and tactics
- define the importance of tactics and techniques for football
- explain the reasons of playing football in the society
- apply the techniques and tactics to improve one's performance in football
- create individual tactic and technical gestures during the football game

Inquiry questions:

- How can football help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Football: Learn

Football becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Football
- idea
- skill
- example
- practice
- correction

Football: Worked Example

Evidence model for Football: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Football: Vocabulary And Study Skill

Use these words and study moves before you practise Football. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Football
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Football without a clear example, method, or evidence.

Football: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwanda creative, performance, movement, craft, artwork, or teamwork activity for Football.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Football: Practice And Correction

Practice for Football:

1. Plan, practise, or perform a safe creative or movement task that shows: the learners should be able to apply tactics and technical gestures of football in attack and defence in a regular game situation. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: recognise the different types of football techniques and tactics. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: define the importance of tactics and techniques for football. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: explain the reasons of playing football in the society. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to football and write two useful sentences about it.

Football: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Football.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Football: Outcome Check

Show that you can the leaners should be able to apply tactics and technical gestures of football in attack and defence in a regular game situation.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Football: Outcome Check

Show that you can recognise the different types of football techniques and tactics.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Volleyball: Lesson Opener

Learning focus: Volleyball

Country link: a safe Rwanda creative, performance, movement, craft, artwork, or teamwork activity for Volleyball.

By the end of this topic, you should be able to:

- the use tactics and technical gestures of volleyball in the attack and defence in a regular game situation
- recognise the different types of volleyball techniques and tactics
- explain the importance of playing volleyball for his/her body in daily
- apply the technical techniques and tactics to improve one's performance in volleyball
- show respect to the rules and regulations during the game

Inquiry questions:

- How can volleyball help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Volleyball: Learn

Volleyball becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Volleyball
- idea
- skill
- example
- practice
- correction

Volleyball: Worked Example

Evidence model for Volleyball: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Volleyball: Vocabulary And Study Skill

Use these words and study moves before you practise Volleyball. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Volleyball
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Volleyball without a clear example, method, or evidence.

Volleyball: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwanda creative, performance, movement, craft, artwork, or teamwork activity for Volleyball.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Volleyball: Practice And Correction

Practice for Volleyball:

1. Plan, practise, or perform a safe creative or movement task that shows: the use tactics and technical gestures of volleyball in the attack and defence in a regular game situation. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: recognise the different types of volleyball techniques and tactics. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: explain the importance of playing volleyball for his/her body in daily. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: apply the technical techniques and tactics to improve one's performance in volleyball. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to volleyball and write two useful sentences about it.

Volleyball: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Volleyball.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Volleyball: Outcome Check

Show that you can use tactics and technical gestures of volleyball in the attack and defence in a regular game situation.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Volleyball: Outcome Check

Show that you can recognise the different types of volleyball techniques and tactics.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Basketball: Lesson Opener

Learning focus: Basketball

Country link: a safe Rwanda creative, performance, movement, craft, artwork, or teamwork activity for Basketball.

By the end of this topic, you should be able to:

- the apply the techniques and tactics of basketball in attack and defence in a regular game situation
- identify the different types of basketball techniques and tactics
- recall the importance of basketball for his/her body in daily life
- explain the reasons of playing basketball in the society
- apply the techniques and tactics to improve one's performance in basketball
- create individual technical and tactical gestures while playing basketball

Inquiry questions:

- How can basketball help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Basketball: Learn

Basketball becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Basketball
- idea
- skill
- example
- practice
- correction

Basketball: Worked Example

Evidence model for Basketball: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Basketball: Vocabulary And Study Skill

Use these words and study moves before you practise Basketball. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Basketball
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Basketball without a clear example, method, or evidence.

Basketball: Guided Activity

Work with a partner or small group.

1. Read the inquiry question again.
2. Choose one real situation linked to a safe Rwanda creative, performance, movement, craft, artwork, or teamwork activity for Basketball.
3. Decide what evidence, method, vocabulary, tool, text, map, diagram, movement, or example is needed.
4. Complete the task together and explain each step aloud.
5. Compare your answer with another group.
6. Improve one part after feedback.

Group role check: one learner reads the task, one records ideas, one checks vocabulary or working, and one reports the answer.

Basketball: Practice And Correction

Practice for Basketball:

1. Plan, practise, or perform a safe creative or movement task that shows: the apply the techniques and tactics of basketball in attack and defence in a regular game situation. Explain the choices you made.
2. Plan, practise, or perform a safe creative or movement task that shows: identify the different types of basketball techniques and tactics. Explain the choices you made.
3. Plan, practise, or perform a safe creative or movement task that shows: recall the importance of basketball for his/her body in daily life. Explain the choices you made.
4. Plan, practise, or perform a safe creative or movement task that shows: explain the reasons of playing basketball in the society. Explain the choices you made.

Correction check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Reflection: What was clear? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for one safe example related to basketball and write two useful sentences about it.

Basketball: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Basketball.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Basketball: Outcome Check

Show that you can the apply the techniques and tactics of basketball in attack and defence in a regular game situation.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Basketball: Outcome Check

Show that you can identify the different types of basketball techniques and tactics.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Handball: Lesson Opener

Learning focus: Handball

Country link: a safe Rwanda creative, performance, movement, craft, artwork, or teamwork activity for Handball.

By the end of this topic, you should be able to:

- the apply the techniques and tactics of handball in the attack and defence, and also apply rules in a game situation
- identify the different types of handball techniques and tactics
- recall the importance of handball for his/her body in daily life
- plan, practise, perform, or create work related to handball
- apply the techniques and tactics to improve one's performance in handball
- create individual techniques and tactics while playing handball

Inquiry questions:

- How can handball help you solve a real problem in Physical Education and Sports?

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Handball: Learn

Handball becomes easier when you connect the idea to a real situation, name the important vocabulary, and practise one step at a time.

Learning routine:

1. Look at a real situation in Rwanda.
2. Name the exact idea or skill.
3. Explain it in simple words.
4. Work through one model example.
5. Try a similar task independently.
6. Correct your answer using the success criteria.

Key words:

- Handball
- idea
- skill
- example
- practice
- correction

Handball: Worked Example

Evidence model for Handball: Teach a real example clearly.

1. Name the place, group, object, source, skill, or issue.
2. Give two facts or observations from the lesson.
3. Explain why the example matters in Rwanda.
4. Add one responsible action, improvement, or reflection.
5. Check that your response uses the exact vocabulary from Physical Education and Sports.

Handball: Vocabulary And Study Skill

Use these words and study moves before you practise Handball. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Handball
- idea
- skill
- example
- practice
- correction

Study skill:

1. Choose three key words.
2. Say each word in your own words.

- skill is practised safely
- creative or movement choices are explained

Handball: Outcome Check

Show that you can identify the different types of handball techniques and tactics.

Before answering, reread the topic title and choose the exact vocabulary, method, evidence, tool, diagram, or example that fits this outcome.

1. State the main idea in one clear sentence.
2. Give one example, method, source, observation, or piece of evidence from this topic.
3. Complete a short task that applies the idea.
4. Check your answer against the success criteria.
5. Write one correction or next step.

Success criteria:

- idea is planned
- skill is practised safely
- creative or movement choices are explained

Motor Control and movement: Plan

Practical workshop for Motor Control and movement: Plan.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Gymnastics: Materials And Safety

Practical workshop for Gymnastics: Materials And Safety.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Athletics: Skill Practice

Practical workshop for Athletics: Skill Practice.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Football: Create Or Perform

Practical workshop for Football: Create Or Perform.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Volleyball: Peer Feedback

Practical workshop for Volleyball: Peer Feedback.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Basketball: Improve And Reflect

Practical workshop for Basketball: Improve And Reflect.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Handball: Plan

Practical workshop for Handball: Plan.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Motor Control and movement: Materials And Safety

Practical workshop for Motor Control and movement: Materials And Safety.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Gymnastics: Skill Practice

Practical workshop for Gymnastics: Skill Practice.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Athletics: Create Or Perform

Practical workshop for Athletics: Create Or Perform.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Football: Peer Feedback

Practical workshop for Football: Peer Feedback.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Volleyball: Improve And Reflect

Practical workshop for Volleyball: Improve And Reflect.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Practical workshop for Basketball: Create Or Perform.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Handball: Peer Feedback

Practical workshop for Handball: Peer Feedback.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Motor Control and movement: Improve And Reflect

Practical workshop for Motor Control and movement: Improve And Reflect.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Gymnastics: Plan

Practical workshop for Gymnastics: Plan.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Athletics: Materials And Safety

Practical workshop for Athletics: Materials And Safety.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Football: Skill Practice

Practical workshop for Football: Skill Practice.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Volleyball: Create Or Perform

Practical workshop for Volleyball: Create Or Perform.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Basketball: Peer Feedback

Practical workshop for Basketball: Peer Feedback.

1. Read the task and name the exact creative, craft, music, movement, design, display, or performance skill.
2. List safe materials, tools, body movement, space, or instruments needed.
3. Practise one small part slowly before doing the full work.
4. Check quality: control, neatness, rhythm, balance, expression, teamwork, care of materials, and safety.
5. Ask a partner for one kind observation and one improvement idea.
6. Improve the work and write what changed.

Reflection: What skill improved? What evidence shows improvement? What will you practise next time?

Motor Control and movement: Review Clinic 1

Use this review clinic to strengthen Physical Education and Sports without copying earlier answers.

1. Choose one idea from Motor Control and movement that was difficult.
2. Explain the idea in your own words.
3. Make one new example from Rwanda.
4. Create one question that checks knowledge.
5. Create one question that checks skill or application.
6. Answer both questions and correct your work.

Challenge: Turn the idea into a drawing, table, map, dialogue, model, demonstration, or worked solution.

Gymnastics: Review Clinic 2

Use this review clinic to strengthen Physical Education and Sports without copying earlier answers.

1. Choose one idea from Gymnastics that was difficult.
2. Explain the idea in your own words.
3. Make one new example from Rwanda.
4. Create one question that checks knowledge.
5. Create one question that checks skill or application.
6. Answer both questions and correct your work.

Challenge: Turn the idea into a drawing, table, map, dialogue, model, demonstration, or worked solution.

Athletics: Review Clinic 3

Use this review clinic to strengthen Physical Education and Sports without copying earlier answers.

1. Choose one idea from Athletics that was difficult.
2. Explain the idea in your own words.
3. Make one new example from Rwanda.
4. Create one question that checks knowledge.
5. Create one question that checks skill or application.
6. Answer both questions and correct your work.

Challenge: Turn the idea into a drawing, table, map, dialogue, model, demonstration, or worked solution.

Football: Review Clinic 4

Use this review clinic to strengthen Physical Education and Sports without copying earlier answers.

1. Choose one idea from Football that was difficult.
2. Explain the idea in your own words.
3. Make one new example from Rwanda.
4. Create one question that checks knowledge.
5. Create one question that checks skill or application.
6. Answer both questions and correct your work.

Challenge: Turn the idea into a drawing, table, map, dialogue, model, demonstration, or worked solution.

Glossary

Use this glossary to revise important words in Physical Education and Sports.

- Motor Control and movement: Explain this term using an example from the book, your school, or your community.
- Gymnastics: Explain this term using an example from the book, your school, or your community.
- Athletics: Explain this term using an example from the book, your school, or your community.
- Football: Explain this term using an example from the book, your school, or your community.
- Volleyball: Explain this term using an example from the book, your school, or your community.
- Basketball: Explain this term using an example from the book, your school, or your community.
- Handball: Explain this term using an example from the book, your school, or your community.

Add five more words from your lessons and write your own meanings.

Answer And Teacher Notes

A strong Physical Education and Sports answer responds to the exact task, uses correct vocabulary, gives a clear example or evidence, and shows correction after feedback. For practical work, name materials, safety, process, quality checks, peer feedback, and one improvement made after review.

Final Project

Create a final project for Physical Education and Sports that shows what you can now do independently.

Your project must include:

1. A clear title.
2. A real-life problem, question, text, performance, investigation, design, or worked task.
3. Evidence from at least three lessons in this book.
4. A drawing, table, map, chart, model, dialogue, paragraph, performance plan, practical product, or worked solution.
5. A correction note showing one improvement after feedback.
6. A short reflection explaining what you learned, what was difficult, and what you will practise next.

Presentation check: keep the work neat, label important parts, use correct vocabulary, and be ready to explain your choices to a classmate or teacher.
