KITABU QUEST S6 Entrepreneurship Alternate

Rwanda REB-CBC learner book

Mascot: impala

This KITABU QUEST book turns the curriculum into short lessons, worked examples, guided activities, practice, review, and home links for Rwanda learners.

How To Use This Book

This book helps S6 learners study Entrepreneurship Alternate one teachable topic at a time.

1. Start with the inquiry question and say what you already know.
2. Read the Learn section slowly and mark new words.
3. Try the worked example before reading the full solution.
4. Complete the activity and practice tasks.
5. Correct your answer using the success criteria.
6. Ask for support when your answer is still unclear.

Subject method: Learn through examples, activities, practice, and reflection.

Learning Skills In This Book

Each topic builds knowledge, skill, values, communication, collaboration, critical thinking, creativity, digital awareness, and self-confidence.

Study actively: speak answers aloud, draw when useful, show your working, cite evidence, use local examples, and correct mistakes after feedback.

A strong answer is specific. It names the idea, gives evidence or method, applies it to the task, and checks whether it answers the question.

Table Of Contents

Use this table to move through the book one topic at a time. Each topic has a lesson opener, clear teaching, a model or example, guided work, practice, and checks for understanding.

1. Ledger and trial balance
2. Ledger and trial balance Explain the steps of posting in ledgers and trial balance
3. Financial statements
4. Financial statements Identify the various financial statements and their purpose
5. Environment Impact Assessment (EIA)
6. Environment Impact Assessment (EIA) Identify the components of EIA procedure Explain the components
7. Business plan pitch
8. Business plan pitch State the steps involved in preparation of a business plan presentation

13. Taxes and customs procedures Explain the procedures of verifying, paying of customs duties and
14. Financial Markets
15. Financial Markets Describe the instruments of a capital market
16. Stock Control
17. Stock Control Evaluate the use of perpetual and
18. Work habits and behaviour
19. Work habits and behaviour Describe the interview process Identify the
20. Work habits and behaviour Identify appropriate workplace behaviours and attitudes
21. Work habits and behaviour - What was the work setting? (office, shop, construction site.?)
22. Work safety and health
23. Work safety and health Explain why certain situations or substances are hazardous
24. Work safety and health Describe the ways of responding to emergencies at the

As you finish each topic, return to the success criteria and correct one answer before moving on.

Ledger and trial balance: Lesson Opener

Learning focus: Ledger and trial balance

Country link: a Rwanda school club, home, farm, cooperative, shop, service, savings, or market example for Ledger and trial balance.

By the end of this topic, you should be able to:

- explain and apply ledger and trial balance in a real learning situation

Inquiry questions:

- How can ledger and trial balance help you solve a real problem in Entrepreneurship Alternate?

Success criteria:

- customer need is clear
- costs or resources are realistic
- risk and improvement are explained

Ledger and trial balance: Learn

Ledger and trial balance is learned through real enterprise decisions, not memorised definitions.

Core idea:

- Entrepreneurship begins with a need or problem people care about.
- A useful idea must match customers, resources, cost, time, and skills.
- Good planning names the product or service, who it helps, what it costs, what can go wrong, and how to improve it.
- Responsible enterprise is honest, lawful, fair, and useful to the community.
- Records help learners compare plans with what actually happened.

Key words:

- Ledger and trial balance
- Ledger
- trial
- balance
- idea
- skill
- example
- practice

Ledger and trial balance: Worked Example

Worked example for Ledger and trial balance: Plan a small school enterprise decision.

1. Need: learners want affordable exercise-book covers before exams.
2. Resource: one group can buy manila paper, reuse clean packaging, and borrow scissors under supervision.
3. Cost: estimate material cost, selling price, and expected surplus before starting.
4. Risk: covers may tear if material is weak, so the group tests one sample first.
5. Improvement: ask two customers for feedback and change the design or price.

Answer check: a strong enterprise answer names the customer need, resource, cost, risk, action, and improvement.

Ledger and trial balance: Vocabulary And Study Skill

Use these words and study moves before you practise Ledger and trial balance. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Ledger and trial balance
- Ledger
- trial
- balance
- idea
- skill
- example
- practice

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Ledger and trial balance without a clear example, method, or evidence.

Ledger and trial balance: Guided Activity

Guided enterprise activity for Ledger and trial balance:

1. Choose one real need from school, home, farm, cooperative, shop, service, or market life.
2. Name the customer or user and why the need matters.
3. List available resources, estimated costs, possible income or value, and one risk.
4. Decide on one responsible action and explain why it is fair and useful.
5. Share the plan with a partner, receive feedback, and improve one detail.

Teacher check: the plan should connect customer need, resources, cost, risk, and improvement.

Ledger and trial balance: Practice And Correction

Enterprise practice for Ledger and trial balance:

1. Use a school, home, farm, or market enterprise example for Ledger and trial balance: explain and apply ledger and trial balance in a real learning situation. Name the customer need, resource, cost, action, risk, and improvement.

Quality checklist:

- customer need is clear
- costs or resources are realistic
- risk and improvement are explained

Evidence to show:

- customer or user need
- resources and cost estimate
- action steps
- risk and responsible decision
- improvement after feedback

Home link: ask a trusted adult about one small enterprise decision and write what made it responsible.

Ledger and trial balance: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Ledger and trial balance.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- customer need is clear
- costs or resources are realistic
- risk and improvement are explained

Ledger and trial balance: Outcome Check

Outcome check for Ledger and trial balance: Explain and apply ledger and trial balance in a real learning situation.

1. State the customer need or enterprise problem.
2. Name the product, service, record, calculation, or decision required.
3. Show costs, resources, action steps, or a simple record where relevant.
4. Identify one risk and one responsible way to reduce it.
5. Write one improvement after feedback.

Success criteria:

- customer need is clear
- costs or resources are realistic
- risk and improvement are explained

Ledger and trial balance Explain the steps of posting in ledgers and trial balance: Lesson Opener

Learning focus: Ledger and trial balance Explain the steps of posting in ledgers and trial balance

Country link: a Rwanda school club, home, farm, cooperative, shop, service, savings, or market example for Ledger and trial balance Explain the steps of posting in ledgers and trial balance.

By the end of this topic, you should be able to:

- explain and apply ledger and trial balance explain the steps of posting in ledgers and trial balance in a real learning situation

Inquiry questions:

- How can ledger and trial balance explain the steps of posting in ledgers and trial balance help you solve a real problem in Entrepreneurship Alternate?

Success criteria:

- customer need is clear
- costs or resources are realistic
- risk and improvement are explained

- customer need is clear
- costs or resources are realistic
- risk and improvement are explained

Work habits and behaviour: Learn

Work habits and behaviour is learned through real enterprise decisions, not memorised definitions.

Core idea:

- Entrepreneurship begins with a need or problem people care about.
- A useful idea must match customers, resources, cost, time, and skills.
- Good planning names the product or service, who it helps, what it costs, what can go wrong, and how to improve it.
- Responsible enterprise is honest, lawful, fair, and useful to the community.
- Records help learners compare plans with what actually happened.

Key words:

- Work habits and behaviour
- Work
- habits
- behaviour
- idea
- skill
- example
- practice

Work habits and behaviour: Worked Example

Worked example for Work habits and behaviour: Plan a small school enterprise decision.

1. Need: learners want affordable exercise-book covers before exams.
2. Resource: one group can buy manila paper, reuse clean packaging, and borrow scissors under supervision.
3. Cost: estimate material cost, selling price, and expected surplus before starting.
4. Risk: covers may tear if material is weak, so the group tests one sample first.
5. Improvement: ask two customers for feedback and change the design or price.

Answer check: a strong enterprise answer names the customer need, resource, cost, risk, action, and improvement.

Work habits and behaviour: Vocabulary And Study Skill

Use these words and study moves before you practise Work habits and behaviour. Good vocabulary helps you read the question, choose the right method, and explain your answer clearly.

Key words:

- Work habits and behaviour
- Work
- habits
- behaviour
- idea

Study skill:

1. Choose three key words.
2. Say each word in your own words.
3. Give one example from Rwanda.
4. Use each word in a correct sentence, calculation step, diagram label, or oral answer.
5. Ask a partner to check whether your example matches the topic.

Common mistake to avoid: giving a general answer about Work habits and behaviour without a clear example, method, or evidence.

Work habits and behaviour: Guided Activity

Guided enterprise activity for Work habits and behaviour:

1. Choose one real need from school, home, farm, cooperative, shop, service, or market life.
2. Name the customer or user and why the need matters.
3. List available resources, estimated costs, possible income or value, and one risk.
4. Decide on one responsible action and explain why it is fair and useful.
5. Share the plan with a partner, receive feedback, and improve one detail.

Teacher check: the plan should connect customer need, resources, cost, risk, and improvement.

Work habits and behaviour: Practice And Correction

Enterprise practice for Work habits and behaviour:

1. Use a school, home, farm, or market enterprise example for Work habits and behaviour: explain and apply work habits and behaviour in a real learning situation. Name the customer need, resource, cost, action, risk, and improvement.

Quality checklist:

- customer need is clear
- costs or resources are realistic
- risk and improvement are explained

Evidence to show:

- customer or user need
- resources and cost estimate
- action steps
- risk and responsible decision
- improvement after feedback

Home link: ask a trusted adult about one small enterprise decision and write what made it responsible.

Work habits and behaviour: Challenge And Remediation

Use this page after practice.

If you need support:

1. Re-read the success criteria.
2. Copy the worked example steps as headings.
3. Replace the model details with details from Work habits and behaviour.
4. Ask one clear question about the step that is confusing.

If you are ready for a challenge:

1. Create a new task from school, home, community, environment, technology, sport, art, market, or fieldwork.
2. Solve or answer it using correct vocabulary.
3. Explain why your answer is reasonable.
4. Write one extension question for a classmate.

Check:

- customer need is clear
- costs or resources are realistic
- risk and improvement are explained

Work habits and behaviour: Outcome Check

Outcome check for Work habits and behaviour: Explain and apply work habits and behaviour in a real learning situation.

1. State the customer need or enterprise problem.
2. Name the product, service, record, calculation, or decision required.
3. Show costs, resources, action steps, or a simple record where relevant.
4. Identify one risk and one responsible way to reduce it.
5. Write one improvement after feedback.

Success criteria:

- customer need is clear
- costs or resources are realistic
- risk and improvement are explained
