Title Page

KITABU QUEST Grade 10 Creative Arts

Kenya CBC content draft for review

Mascot: lilac-breasted roller

This content-first draft was regenerated from Kitabu curriculum data using a topic-by-topic book plan. It is designed to help learners read, practise, discuss, create, and revise with confidence.

Cover artwork is intentionally deferred until all content has passed review and is marked ready-for-cover.

How To Use This Book

This book helps Grade 10 learners study Creative Arts through clear lessons, worked examples, activities, practice, and revision.

Use the inquiry questions to think first. Read the explanation. Try the guided example. Complete the activity. Answer the practice questions. Correct your work and ask for support where needed.

Create, perform, observe, improve, and reflect using local materials and culture.

Every unit has a local example, a misconception to avoid, success criteria, and a check for understanding.

Learning Skills In This Book

Each chapter builds knowledge, skills, values, creativity, communication, collaboration, critical thinking, digital literacy, and self-confidence.

Look for these page types: Learn, Example, Activity, Practice, Reflection, Home Link, and Review.

How to study well: read the goal first, underline new words, try the example before reading the answer, discuss with a partner, and correct your work after feedback. Do not skip the reflection questions. They help you notice what you understand and what needs more practice.

Table Of Contents

Use this table of contents to plan your study. Start with the first chapter, but return to earlier pages whenever you need revision.

1. 1.0 Picture Making Techniques (2 D Art)
2. 2.0 Multimedia Arts (2D Art)
3. 3.0 Indigenous Crafts (3D Art)

After each chapter, complete the chapter review before moving forward. At the end of the book, use the glossary, answer notes, and final project to revise the whole subject.

Chapter: Picture Making Techniques (2 D Art)

In this chapter you will study Picture Making Techniques (2 D Art).

Inquiry starter: What do you already know about this topic from home, school, or your community?

Chapter units:

- 1.1 Drawing: Elements, Principles, and Perspective
- 1.2 Painting: Wash and Brush Spraying Techniques
- 1.3 Collage: Single-Media and Mixed-Media

Before you begin, write two things you already know and one question you want to answer. As you study, collect examples from daily life. At the end of the chapter, return to your question and improve your answer using new vocabulary, examples, and evidence from the lessons.

Drawing: Elements, Principles, and Perspective: Elements and Principles: Lesson Opener

Learning area: Drawing: Elements, Principles, and Perspective: Elements and Principles

Start here: a drawing, design, music, dance, drama, craft, exhibition, or performance activity linked to Drawing: Elements, Principles, and Perspective: Elements and Principles.

Curriculum link: This lesson follows the Grade 10 curriculum sequence and focuses on Drawing: Elements, Principles, and Perspective: Elements and Principles.

By the end of this lesson sequence, you should be able to:

- analyse the elements and principles of 2-dimensional art in drawing
- draw objects in one-point perspective
- draw objects in two - point perspective
- compose a still life to apply the stages of drawing

Inquiry questions:

- How can perspective create an illusion of depth in a drawing?
- Why is a portfolio important in the creative process of an artwork?

Before reading, write one thing you already know and one question you want this lesson to answer.

Drawing: Elements, Principles, and Perspective: Elements and Principles: Learn

Start with this real situation: a drawing, design, music, dance, drama, craft, exhibition, or performance activity linked to Drawing: Elements, Principles, and Perspective: Elements and Principles.

The important idea is Drawing: Elements, Principles, and Perspective: Elements and Principles. In this lesson, do not memorise words only. Read the example, try the guided task, then explain the idea in your own words.

A common mistake is finishing a product without planning, practising, improving, or explaining creative choices. Avoid it by checking your work against these success criteria:

- idea is planned
- skill is practised
- creative choices are explained

For Grade 10, use exam-ready precision with terms explained before use.

Inline visual support:

Creative process	Evidence in the work
Plan	Purpose, audience, material, and time.
Practise	Skill or technique tried slowly first.
Improve	One visible or audible change after feedback.
Explain	Why the choice fits the message or performance.

Method for Creative Arts: Create, perform, observe, improve, and reflect using local materials and culture.

Key words:

- Drawing: Elements, Principles, and Perspective: Elements and Principles
- Drawing: Elements, Principles, and Perspective
- Drawing
- Elements
- Principles
- Perspective

Explain the idea in your own words before attempting the activities.

Drawing: Elements, Principles, and Perspective: Elements and Principles: Worked Example

Studio model for Drawing: Elements, Principles, and Perspective: Elements and Principles: Build a visual idea from observation.

Procedure:

1. Observe the object, scene, message, or pattern before drawing.
2. Make two thumbnail sketches to test composition.
3. Choose line, shape, colour, texture, and balance deliberately.
4. Create the work safely, keeping materials labelled and the space clean.
5. Improve one part after feedback, such as contrast, spacing, neatness, or focal point.

Rubric: excellent work has a clear message, controlled technique, safe material use, visible improvement, and an explanation of design choices.

Drawing: Elements, Principles, and Perspective: Elements and Principles: Activity

Activity for Drawing: Elements, Principles, and Perspective: Elements and Principles: Use a safe creative-process checklist.

Inquiry question: How can perspective create an illusion of depth in a drawing?

1. Plan the purpose, audience, material, space, and time.
2. Identify hazards such as sharp tools, dyes, hot wax, dust, water, slippery surfaces, collision, or voice strain.
3. Practise the skill slowly before producing the final artwork, performance, or movement.
4. Ask for feedback on one visible or audible feature.
5. Improve one part and explain what changed.
6. Judge quality using technique, safety, creativity, finish, teamwork, and message.

Success criteria:

- idea is planned
- skill is practised
- creative choices are explained

Home link: Find a safe artwork, song, dance, craft, game, or performance example. Describe one technique and one safety rule.

Drawing: Elements, Principles, and Perspective: Elements and Principles: Activity And Practice

Practice for Drawing: Elements, Principles, and Perspective: Elements and Principles:

1. Carry out or describe a practical task for this outcome: analyse the elements and principles of 2-dimensional art in drawing. List materials, steps, safety checks, and how you will judge quality.
2. Carry out or describe a practical task for this outcome: draw objects in one-point perspective. List materials, steps, safety checks, and how you will judge quality.
3. Carry out or describe a practical task for this outcome: draw objects in two - point perspective. List materials, steps, safety checks, and how you will judge quality.
4. Carry out or describe a practical task for this outcome: compose a still life to apply the stages of drawing. List materials, steps, safety checks, and how you will judge quality.

Correction check:

- idea is planned
- skill is practised
- creative choices are explained

Reflection: What was easy? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for an example related to drawing: elements, principles, and perspective: elements and principles and write two useful sentences about it.

Drawing: Elements, Principles, and Perspective: Elements and Principles: Outcome Check

Outcome: analyse the elements and principles of 2-dimensional art in drawing

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Drawing: Elements, Principles, and Perspective: Elements and Principles.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Drawing: Elements, Principles, and Perspective: Elements and Principles: Outcome Check

Outcome: draw objects in one-point perspective

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Drawing: Elements, Principles, and Perspective: Elements and Principles.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Drawing: Elements, Principles, and Perspective: Elements and Principles: Outcome Check

Outcome: draw objects in two - point perspective

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Drawing: Elements, Principles, and Perspective: Elements and Principles.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Drawing: Elements, Principles, and Perspective: Portfolio Folder: Lesson Opener

Learning area: Drawing: Elements, Principles, and Perspective: Portfolio Folder

Start here: a drawing, design, music, dance, drama, craft, exhibition, or performance activity linked to Drawing: Elements, Principles, and Perspective: Portfolio Folder.

Curriculum link: This lesson follows the Grade 10 curriculum sequence and focuses on Drawing: Elements, Principles, and Perspective: Portfolio Folder.

By the end of this lesson sequence, you should be able to:

- make a portfolio folder for storage and presentation of artworks
- value drawing as a technique in picture making.

Inquiry questions:

- Why is a portfolio important in the creative process of an artwork?

Before reading, write one thing you already know and one question you want this lesson to answer.

Drawing: Elements, Principles, and Perspective: Portfolio Folder: Learn

Start with this real situation: a drawing, design, music, dance, drama, craft, exhibition, or performance activity linked to Drawing: Elements, Principles, and Perspective: Portfolio Folder.

The important idea is Drawing: Elements, Principles, and Perspective: Portfolio Folder. In this lesson, do not memorise words only. Read the example, try the guided task, then explain the idea in your own words.

A common mistake is finishing a product without planning, practising, improving, or explaining creative choices. Avoid it by checking your work against these success criteria:

- idea is planned
- skill is practised
- creative choices are explained

For Grade 10, use exam-ready precision with terms explained before use.

Inline visual support:

| Creative process | Evidence in the work |

| --- | --- |

| Plan | Purpose, audience, material, and time. |

| Practise | Skill or technique tried slowly first. |

| Improve | One visible or audible change after feedback. |

| Explain | Why the choice fits the message or performance. |

Method for Creative Arts: Create, perform, observe, improve, and reflect using local materials and culture.

Key words:

- Drawing: Elements, Principles, and Perspective: Portfolio Folder
- Drawing: Elements, Principles, and Perspective
- Drawing
- Elements
- Principles
- Perspective
- Portfolio
- Folder

Explain the idea in your own words before attempting the activities.

Drawing: Elements, Principles, and Perspective: Portfolio Folder: Worked Example

Studio model for Drawing: Elements, Principles, and Perspective: Portfolio Folder: Build a visual idea from observation.

Procedure:

1. Observe the object, scene, message, or pattern before drawing.
2. Make two thumbnail sketches to test composition.
3. Choose line, shape, colour, texture, and balance deliberately.
4. Create the work safely, keeping materials labelled and the space clean.
5. Improve one part after feedback, such as contrast, spacing, neatness, or focal point.

Rubric: excellent work has a clear message, controlled technique, safe material use, visible improvement, and an explanation of design choices.

Drawing: Elements, Principles, and Perspective: Portfolio Folder: Activity

Activity for Drawing: Elements, Principles, and Perspective: Portfolio Folder: Use a safe creative-process checklist.

Inquiry question: Why is a portfolio important in the creative process of an artwork?

1. Plan the purpose, audience, material, space, and time.
2. Identify hazards such as sharp tools, dyes, hot wax, dust, water, slippery surfaces, collision, or voice strain.
3. Practise the skill slowly before producing the final artwork, performance, or movement.
4. Ask for feedback on one visible or audible feature.
5. Improve one part and explain what changed.
6. Judge quality using technique, safety, creativity, finish, teamwork, and message.

Success criteria:

- idea is planned
- skill is practised
- creative choices are explained

Home link: Find a safe artwork, song, dance, craft, game, or performance example. Describe one technique and one safety rule.

Drawing: Elements, Principles, and Perspective: Portfolio Folder: Activity And Practice

Practice for Drawing: Elements, Principles, and Perspective: Portfolio Folder:

1. Carry out or describe a practical task for this outcome: make a portfolio folder for storage and presentation of artworks. List materials, steps, safety checks, and how you will judge quality.
2. Carry out or describe a practical task for this outcome: value drawing as a technique in picture making. List materials, steps, safety checks, and how you will judge quality.

Correction check:

- idea is planned
- skill is practised
- creative choices are explained

Reflection: What was easy? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for an example related to drawing: elements, principles, and perspective: portfolio folder and write two useful sentences about it.

Drawing: Elements, Principles, and Perspective: Portfolio Folder: Outcome Check

Outcome: make a portfolio folder for storage and presentation of artworks

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Drawing: Elements, Principles, and Perspective: Portfolio Folder.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Drawing: Elements, Principles, and Perspective: Portfolio Folder: Outcome Check

Outcome: value drawing as a technique in picture making.

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Drawing: Elements, Principles, and Perspective: Portfolio Folder.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Painting: Wash and Brush Spraying Techniques: Wash Techniques: Lesson Opener

Learning area: Painting: Wash and Brush Spraying Techniques: Wash Techniques

Start here: a drawing, design, music, dance, drama, craft, exhibition, or performance activity linked to Painting: Wash and Brush Spraying Techniques: Wash Techniques.

Curriculum link: This lesson follows the Grade 10 curriculum sequence and focuses on Painting: Wash and Brush Spraying Techniques: Wash Techniques.

By the end of this lesson sequence, you should be able to:

- describe wash techniques of painting
- paint sceneries from observation using wash technique
- describe brush spraying techniques of painting
- create a pictorial composition using brush spray painting technique

Inquiry questions:

- Why is the wash technique most appropriate for painting sceneries?
- How do flat and graded washes compare in terms of their application, challenges and outcomes?

Before reading, write one thing you already know and one question you want this lesson to answer.

Painting: Wash and Brush Spraying Techniques: Wash Techniques: Learn

Start with this real situation: a drawing, design, music, dance, drama, craft, exhibition, or performance activity linked to Painting: Wash and Brush Spraying Techniques: Wash Techniques.

The important idea is Painting: Wash and Brush Spraying Techniques: Wash Techniques. In this lesson, do not memorise words only. Read the example, try the guided task, then explain the idea in your own words.

A common mistake is finishing a product without planning, practising, improving, or explaining creative choices. Avoid it by checking your work against these success criteria:

- idea is planned
- skill is practised
- creative choices are explained

For Grade 10, use exam-ready precision with terms explained before use.

Inline visual support:

Creative process	Evidence in the work
Plan	Purpose, audience, material, and time.
Practise	Skill or technique tried slowly first.
Improve	One visible or audible change after feedback.
Explain	Why the choice fits the message or performance.

Method for Creative Arts: Create, perform, observe, improve, and reflect using local materials and culture.

Key words:

- Painting: Wash and Brush Spraying Techniques: Wash Techniques
- Painting: Wash and Brush Spraying Techniques
- Painting
- Brush
- Spraying
- Techniques

Explain the idea in your own words before attempting the activities.

Painting: Wash and Brush Spraying Techniques: Wash Techniques: Worked Example

Studio model for Painting: Wash and Brush Spraying Techniques: Wash Techniques: Build a visual idea from observation.

Procedure:

1. Observe the object, scene, message, or pattern before drawing.
2. Make two thumbnail sketches to test composition.
3. Choose line, shape, colour, texture, and balance deliberately.
4. Create the work safely, keeping materials labelled and the space clean.
5. Improve one part after feedback, such as contrast, spacing, neatness, or focal point.

Rubric: excellent work has a clear message, controlled technique, safe material use, visible improvement, and an explanation of design choices.

Painting: Wash and Brush Spraying Techniques: Wash Techniques: Activity

Activity for Painting: Wash and Brush Spraying Techniques: Wash Techniques: Use a safe creative-process checklist.

Inquiry question: Why is the wash technique most appropriate for painting sceneries?

1. Plan the purpose, audience, material, space, and time.
2. Identify hazards such as sharp tools, dyes, hot wax, dust, water, slippery surfaces, collision, or voice strain.
3. Practise the skill slowly before producing the final artwork, performance, or movement.
4. Ask for feedback on one visible or audible feature.
5. Improve one part and explain what changed.
6. Judge quality using technique, safety, creativity, finish, teamwork, and message.

Success criteria:

- idea is planned
- skill is practised
- creative choices are explained

Home link: Find a safe artwork, song, dance, craft, game, or performance example. Describe one technique and one safety rule.

Painting: Wash and Brush Spraying Techniques: Wash Techniques: Activity And Practice

Practice for Painting: Wash and Brush Spraying Techniques: Wash Techniques:

1. Carry out or describe a practical task for this outcome: describe wash techniques of painting. List materials, steps, safety checks, and how you will judge quality.
2. Carry out or describe a practical task for this outcome: paint sceneries from observation using wash technique. List materials, steps, safety checks, and how you will judge quality.
3. Carry out or describe a practical task for this outcome: describe brush spraying techniques of painting. List materials, steps, safety checks, and how you will judge quality.
4. Carry out or describe a practical task for this outcome: create a pictorial composition using brush spray painting technique. List materials, steps, safety checks, and how you will judge quality.

Correction check:

- idea is planned
- skill is practised
- creative choices are explained

Reflection: What was easy? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for an example related to painting: wash and brush spraying techniques: wash techniques and write two useful sentences about it.

Painting: Wash and Brush Spraying Techniques: Wash Techniques: Outcome Check

Outcome: describe wash techniques of painting

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Painting: Wash and Brush Spraying Techniques: Wash Techniques.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Painting: Wash and Brush Spraying Techniques: Wash Techniques: Outcome Check

Outcome: paint sceneries from observation using wash technique

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Painting: Wash and Brush Spraying Techniques: Wash Techniques.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Painting: Wash and Brush Spraying Techniques: Wash Techniques: Outcome Check

Outcome: describe brush spraying techniques of painting

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Painting: Wash and Brush Spraying Techniques: Wash Techniques.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Painting: Wash and Brush Spraying Techniques: Art Appreciation: Lesson Opener

Learning area: Painting: Wash and Brush Spraying Techniques: Art Appreciation

Start here: a drawing, design, music, dance, drama, craft, exhibition, or performance activity linked to Painting: Wash and Brush Spraying Techniques: Art Appreciation.

Curriculum link: This lesson follows the Grade 10 curriculum sequence and focuses on Painting: Wash and Brush Spraying Techniques: Art Appreciation.

By the end of this lesson sequence, you should be able to:

- appreciate own and others' paintings.

Inquiry questions:

- How do flat and graded washes compare in terms of their application, challenges and outcomes?

Before reading, write one thing you already know and one question you want this lesson to answer.

Painting: Wash and Brush Spraying Techniques: Art Appreciation: Learn

Start with this real situation: a drawing, design, music, dance, drama, craft, exhibition, or performance activity linked to Painting: Wash and Brush Spraying Techniques: Art Appreciation.

The important idea is Painting: Wash and Brush Spraying Techniques: Art Appreciation. In this lesson, do not memorise words only. Read the example, try the guided task, then explain the idea in your own words.

A common mistake is finishing a product without planning, practising, improving, or explaining creative choices. Avoid it by checking your work against these success criteria:

- idea is planned
- skill is practised
- creative choices are explained

For Grade 10, use exam-ready precision with terms explained before use.

Inline visual support:

Creative process	Evidence in the work
Plan	Purpose, audience, material, and time.
Practise	Skill or technique tried slowly first.
Improve	One visible or audible change after feedback.
Explain	Why the choice fits the message or performance.

Method for Creative Arts: Create, perform, observe, improve, and reflect using local materials and culture.

Key words:

- Painting: Wash and Brush Spraying Techniques: Art Appreciation
- Painting: Wash and Brush Spraying Techniques
- Painting
- Brush
- Spraying
- Techniques
- Appreciation

Explain the idea in your own words before attempting the activities.

Painting: Wash and Brush Spraying Techniques: Art Appreciation: Worked Example

Studio model for Painting: Wash and Brush Spraying Techniques: Art Appreciation: Build a visual idea from observation.

Procedure:

1. Observe the object, scene, message, or pattern before drawing.
2. Make two thumbnail sketches to test composition.
3. Choose line, shape, colour, texture, and balance deliberately.
4. Create the work safely, keeping materials labelled and the space clean.
5. Improve one part after feedback, such as contrast, spacing, neatness, or focal point.

Rubric: excellent work has a clear message, controlled technique, safe material use, visible improvement, and an explanation of design choices.

Painting: Wash and Brush Spraying Techniques: Art Appreciation: Activity

Activity for Painting: Wash and Brush Spraying Techniques: Art Appreciation: Use a safe creative-process checklist.

Inquiry question: How do flat and graded washes compare in terms of their application, challenges and outcomes?

1. Plan the purpose, audience, material, space, and time.
2. Identify hazards such as sharp tools, dyes, hot wax, dust, water, slippery surfaces, collision, or voice strain.
3. Practise the skill slowly before producing the final artwork, performance, or movement.
4. Ask for feedback on one visible or audible feature.
5. Improve one part and explain what changed.
6. Judge quality using technique, safety, creativity, finish, teamwork, and message.

Success criteria:

- idea is planned
- skill is practised
- creative choices are explained

Home link: Find a safe artwork, song, dance, craft, game, or performance example. Describe one technique and one safety rule.

Painting: Wash and Brush Spraying Techniques: Art Appreciation: Activity And Practice

Practice for Painting: Wash and Brush Spraying Techniques: Art Appreciation:

1. Carry out or describe a practical task for this outcome: appreciate own and others' paintings. List materials, steps, safety checks, and how you will judge quality.

Correction check:

- idea is planned
- skill is practised
- creative choices are explained

Reflection: What was easy? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for an example related to painting: wash and brush spraying techniques: art appreciation and write two useful sentences about it.

Painting: Wash and Brush Spraying Techniques: Art Appreciation: Outcome Check

Outcome: appreciate own and others' paintings.

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Painting: Wash and Brush Spraying Techniques: Art Appreciation.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Collage: Single-Media and Mixed-Media: Lesson Opener

Learning area: Collage: Single-Media and Mixed-Media

Start here: a drawing, design, music, dance, drama, craft, exhibition, or performance activity linked to Collage: Single-Media and Mixed-Media.

Curriculum link: This lesson follows the Grade 10 curriculum sequence and focuses on Collage: Single-Media and Mixed-Media.

By the end of this lesson sequence, you should be able to:

- analyse the concept of collage technique
- create a single media collage composition for self-expression
- explain and apply collage: single-media and mixed-media using clear examples and practice

Inquiry questions:

- How can the choice of materials affect the durability of a collage?

Before reading, write one thing you already know and one question you want this lesson to answer.

Collage: Single-Media and Mixed-Media: Learn

Start with this real situation: a drawing, design, music, dance, drama, craft, exhibition, or performance activity linked to Collage: Single-Media and Mixed-Media.

The important idea is Collage: Single-Media and Mixed-Media. In this lesson, do not memorise words only. Read the example, try the guided task, then explain the idea in your own words.

A common mistake is finishing a product without planning, practising, improving, or explaining creative choices. Avoid it by checking your work against these success criteria:

- idea is planned
- skill is practised
- creative choices are explained

For Grade 10, use exam-ready precision with terms explained before use.

Inline visual support:

Creative process	Evidence in the work
Plan	Purpose, audience, material, and time.
Practise	Skill or technique tried slowly first.
Improve	One visible or audible change after feedback.
Explain	Why the choice fits the message or performance.

Method for Creative Arts: Create, perform, observe, improve, and reflect using local materials and culture.

Key words:

- Collage: Single-Media and Mixed-Media
- Collage
- Single-Media
- Mixed-Media

Explain the idea in your own words before attempting the activities.

Collage: Single-Media and Mixed-Media: Worked Example

Craft model for Collage: Single-Media and Mixed-Media: Make a useful or expressive object safely.

Procedure:

1. Sketch the object and label materials before starting.
2. Measure, cut, fold, weave, join, or decorate with teacher-approved tools.
3. Check strength, neatness, balance, pattern, and finishing while working.
4. Keep sharp tools, glue, dye, and waste controlled.
5. Improve one feature after feedback and explain the change.

Rubric: excellent work is functional or expressive, safely made, neatly finished, improved after feedback, and explained with correct art vocabulary.

Collage: Single-Media and Mixed-Media: Activity

Activity for Collage: Single-Media and Mixed-Media: Use a safe creative-process checklist.

Inquiry question: How can the choice of materials affect the durability of a collage?

1. Plan the purpose, audience, material, space, and time.
2. Identify hazards such as sharp tools, dyes, hot wax, dust, water, slippery surfaces, collision, or voice strain.
3. Practise the skill slowly before producing the final artwork, performance, or movement.
4. Ask for feedback on one visible or audible feature.
5. Improve one part and explain what changed.
6. Judge quality using technique, safety, creativity, finish, teamwork, and message.

Success criteria:

- idea is planned
- skill is practised
- creative choices are explained

Home link: Find a safe artwork, song, dance, craft, game, or performance example. Describe one technique and one safety rule.

Collage: Single-Media and Mixed-Media: Activity And Practice

Practice for Collage: Single-Media and Mixed-Media:

1. Carry out or describe a practical task for this outcome: analyse the concept of collage technique. List materials, steps, safety checks, and how you will judge quality.
2. Carry out or describe a practical task for this outcome: create a single media collage composition for self-expression. List materials, steps, safety checks, and how you will judge quality.
3. Carry out or describe a practical task for this outcome: explain and apply collage: single-media and mixed-media using clear examples and practice. List materials, steps, safety checks, and how you will judge quality.

Correction check:

- idea is planned
- skill is practised
- creative choices are explained

Reflection: What was easy? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for an example related to collage: single-media and mixed-media and write two useful sentences about it.

Collage: Single-Media and Mixed-Media: Outcome Check

Outcome: analyse the concept of collage technique

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Collage: Single-Media and Mixed-Media.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Collage: Single-Media and Mixed-Media: Outcome Check

Outcome: create a single media collage composition for self-expression

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Collage: Single-Media and Mixed-Media.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Collage: Single-Media and Mixed-Media: Outcome Check

Outcome: explain and apply collage: single-media and mixed-media using clear examples and practice

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Collage: Single-Media and Mixed-Media.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Picture Making Techniques (2 D Art): Chapter Review

Review the chapter carefully.

1. Write five key words from this chapter and explain each one.
2. Choose two units and compare what you learned.
3. Create one poster, chart, dialogue, model, map, or worked solution that teaches this chapter.
4. Answer one inquiry question again. Improve your first answer using what you now know.
5. Rate your confidence: high, medium, or needs practice.

Chapter: Multimedia Arts (2D Art)

In this chapter you will study Multimedia Arts (2D Art).

Inquiry starter: What do you already know about this topic from home, school, or your community?

Chapter units:

- 2.1 Graphic Design Trademark An educational/ social/ /advertisement poster.
- 2.2 Graphic Design - Typography Calligraphy Block letters Graffiti letters
- 2.3 Fabric Decoration: Tie and Dye Tie and dye technique- (diamond and spiral effect) Materials (dyes, fabric).
- 2.4 Fabric Decoration: Batik. 2 colours Batik - Concept - Crackled effect - textured effect - Materials and tools

Before you begin, write two things you already know and one question you want to answer. As you study, collect examples from daily life. At the end of the chapter, return to your question and improve your answer using new vocabulary, examples, and evidence from the lessons.

graphic illustrations incorporated in a work of Art: components of graphics design for familiarity: Lesson Opener

Learning area: graphic illustrations incorporated in a work of Art: components of graphics design for familiarity

Start here: a drawing, design, music, dance, drama, craft, exhibition, or performance activity linked to graphic illustrations incorporated in a work of Art: components of graphics design for familiarity.

Curriculum link: This lesson follows the Grade 10 curriculum sequence and focuses on graphic illustrations incorporated in a work of Art: components of graphics design for familiarity.

By the end of this lesson sequence, you should be able to:

- describe components of graphics design for familiarity
- design a trade mark using computer aided design
- design a poster using line and wash illustrations
- compose a poster using computer aided design

Inquiry questions:

- Why are graphic illustrations incorporated in a work of Art?
- How does colour shape effective communication in poster design?

Before reading, write one thing you already know and one question you want this lesson to answer.

graphic illustrations incorporated in a work of Art: components of graphics design for familiarity: Learn

Start with this real situation: a drawing, design, music, dance, drama, craft, exhibition, or performance activity linked to graphic illustrations incorporated in a work of Art: components of graphics design for familiarity.

The important idea is graphic illustrations incorporated in a work of Art: components of graphics design for familiarity. In this lesson, do not memorise words only. Read the example, try the guided task, then explain the idea in your own words.

A common mistake is finishing a product without planning, practising, improving, or explaining creative choices. Avoid it by checking your work against these success criteria:

- idea is planned
- skill is practised
- creative choices are explained

For Grade 10, use exam-ready precision with terms explained before use.

Inline visual support:

Creative process	Evidence in the work
Plan	Purpose, audience, material, and time.
Practise	Skill or technique tried slowly first.
Improve	One visible or audible change after feedback.
Explain	Why the choice fits the message or performance.

Method for Creative Arts: Create, perform, observe, improve, and reflect using local materials and culture.

Key words:

- graphic illustrations incorporated in a work of Art: components of graphics design for familiarity
- graphic illustrations incorporated in a work of Art
- graphic
- illustrations
- incorporated
- components
- graphics
- design

Explain the idea in your own words before attempting the activities.

graphic illustrations incorporated in a work of Art: components of graphics design for familiarity: Worked Example

Studio model for graphic illustrations incorporated in a work of Art: components of graphics design for familiarity: Build a visual idea from observation.

Procedure:

1. Observe the object, scene, message, or pattern before drawing.
2. Make two thumbnail sketches to test composition.
3. Choose line, shape, colour, texture, and balance deliberately.
4. Create the work safely, keeping materials labelled and the space clean.
5. Improve one part after feedback, such as contrast, spacing, neatness, or focal point.

Rubric: excellent work has a clear message, controlled technique, safe material use, visible improvement, and an explanation of design choices.

graphic illustrations incorporated in a work of Art: components of graphics design for familiarity: Activity

Activity for graphic illustrations incorporated in a work of Art: components of graphics design for familiarity: Use a safe creative-process checklist.

Inquiry question: Why are graphic illustrations incorporated in a work of Art?

1. Plan the purpose, audience, material, space, and time.
2. Identify hazards such as sharp tools, dyes, hot wax, dust, water, slippery surfaces, collision, or voice strain.
3. Practise the skill slowly before producing the final artwork, performance, or movement.
4. Ask for feedback on one visible or audible feature.
5. Improve one part and explain what changed.
6. Judge quality using technique, safety, creativity, finish, teamwork, and message.

Success criteria:

- idea is planned
- skill is practised
- creative choices are explained

Home link: Find a safe artwork, song, dance, craft, game, or performance example. Describe one technique and one safety rule.

graphic illustrations incorporated in a work of Art: components of graphics design for familiarity: Activity And Practice

Practice for graphic illustrations incorporated in a work of Art: components of graphics design for familiarity:

1. Carry out or describe a practical task for this outcome: describe components of graphics design for familiarity. List materials, steps, safety checks, and how you will judge quality.
2. Carry out or describe a practical task for this outcome: design a trade mark using computer aided design. List materials, steps, safety checks, and how you will judge quality.
3. Carry out or describe a practical task for this outcome: design a poster using line and wash illustrations. List materials, steps, safety checks, and how you will judge quality.
4. Carry out or describe a practical task for this outcome: compose a poster using computer aided design. List materials, steps, safety checks, and how you will judge quality.

Correction check:

- idea is planned
- skill is practised
- creative choices are explained

Reflection: What was easy? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for an example related to graphic illustrations incorporated in a work of art: components of graphics design for familiarity and write two useful sentences about it.

graphic illustrations incorporated in a work of Art: components of graphics design for familiarity: Outcome Check

Outcome: describe components of graphics design for familiarity

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in graphic illustrations incorporated in a work of Art: components of graphics design for familiarity.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

graphic illustrations incorporated in a work of Art: components of graphics design for familiarity: Outcome Check

Outcome: design a trade mark using computer aided design

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in graphic illustrations incorporated in a work of Art: components of graphics design for familiarity.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

graphic illustrations incorporated in a work of Art: components of graphics design for familiarity: Outcome Check

Outcome: design a poster using line and wash illustrations

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in graphic illustrations incorporated in a work of Art: components of graphics design for familiarity.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Method for Creative Arts: Create, perform, observe, improve, and reflect using local materials and culture.

Key words:

- Fabric Decoration: Tie and Dye Tie and dye technique- (diamond and spiral
- Fabric Decoration: Tie and Dye Tie and dye technique- (diamond and spiral effect) Materials (dyes, fabric).
- Fabric
- Decoration
- diamond
- spiral

Explain the idea in your own words before attempting the activities.

Fabric Decoration: Tie and Dye Tie and dye technique- (diamond and spiral: Worked Example

Studio model for Fabric Decoration: Tie and Dye Tie and dye technique- (diamond and spiral: Tie-dye or batik safety and quality.

Teacher-supervised procedure:

1. Sketch the pattern before using dye or wax.
2. Wear gloves and protect the work surface.
3. Tie, fold, stitch, or apply wax according to the planned pattern.
4. Apply dye carefully and keep colours labelled.
5. Rinse, dry, and evaluate the pattern after the teacher confirms it is safe.

Hazards: staining skin/clothes, hot wax, chemical irritation, spills, and slippery floors.

Quality criteria: clear pattern, controlled colour, safe handling, neat finishing, and explanation of design choices.

Fabric Decoration: Tie and Dye Tie and dye technique- (diamond and spiral: Activity

Activity for Fabric Decoration: Tie and Dye Tie and dye technique- (diamond and spiral: Use a safe creative-process checklist.

Inquiry question: What is the cultural significance of tie and dye?

1. Plan the purpose, audience, material, space, and time.
2. Identify hazards such as sharp tools, dyes, hot wax, dust, water, slippery surfaces, collision, or voice strain.
3. Practise the skill slowly before producing the final artwork, performance, or movement.
4. Ask for feedback on one visible or audible feature.
5. Improve one part and explain what changed.
6. Judge quality using technique, safety, creativity, finish, teamwork, and message.

Success criteria:

- idea is planned
- skill is practised
- creative choices are explained

Home link: Find a safe artwork, song, dance, craft, game, or performance example. Describe one technique and one safety rule.

Fabric Decoration: Tie and Dye Tie and dye technique- (diamond and spiral: Activity And Practice

Practice for Fabric Decoration: Tie and Dye Tie and dye technique- (diamond and spiral:

1. Carry out or describe a practical task for this outcome: analyse the concept of tie and dyed in fabric decoration. List materials, steps, safety checks, and how you will judge quality.
2. Carry out or describe a practical task for this outcome: tie and dye fabric to create diamond effect. List materials, steps, safety checks, and how you will judge quality.
3. Carry out or describe a practical task for this outcome: tie and dye fabric to create spiral effects. List materials, steps, safety checks, and how you will judge quality.
4. Carry out or describe a practical task for this outcome: appraise own and others' decorated fabrics. List materials, steps, safety checks, and how you will judge quality.

Correction check:

- idea is planned
- skill is practised
- creative choices are explained

Reflection: What was easy? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for an example related to fabric decoration: tie and dye tie and dye technique- (diamond and spiral and write two useful sentences about it.

Fabric Decoration: Tie and Dye Tie and dye technique- (diamond and spiral: Outcome Check

Outcome: analyse the concept of tie and dyed in fabric decoration

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Fabric Decoration: Tie and Dye Tie and dye technique- (diamond and spiral.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Fabric Decoration: Tie and Dye Tie and dye technique- (diamond and spiral: Outcome Check

Outcome: tie and dye fabric to create diamond effect

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Fabric Decoration: Tie and Dye Tie and dye technique- (diamond and spiral).
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Fabric Decoration: Tie and Dye Tie and dye technique- (diamond and spiral: Outcome Check

Outcome: tie and dye fabric to create spiral effects

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Fabric Decoration: Tie and Dye Tie and dye technique- (diamond and spiral).
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Fabric Decoration: Batik. 2 colours Batik - Concept - Crackled effect -: Lesson Opener

Learning area: Fabric Decoration: Batik. 2 colours Batik - Concept - Crackled effect -

Start here: a drawing, design, music, dance, drama, craft, exhibition, or performance activity linked to Fabric Decoration: Batik. 2 colours Batik - Concept - Crackled effect -.

Curriculum link: This lesson follows the Grade 10 curriculum sequence and focuses on Fabric Decoration: Batik. 2 colours Batik - Concept - Crackled effect -.

By the end of this lesson sequence, you should be able to:

- analyse the concept of batik in fabric decoration
- batik fabric to create crackled and textured effect
- appraise own and others' decorated fabrics.

Inquiry questions:

- Why is it not possible to have definite shapes when tie and dyeing?
- What visual effect is observed in a fabric made using batik technique?

Before reading, write one thing you already know and one question you want this lesson to answer.

Fabric Decoration: Batik. 2 colours Batik - Concept - Crackled effect -: Learn

Start with this real situation: a drawing, design, music, dance, drama, craft, exhibition, or performance activity linked to Fabric Decoration: Batik. 2 colours Batik - Concept - Crackled effect -.

The important idea is Fabric Decoration: Batik. 2 colours Batik - Concept - Crackled effect -. In this lesson, do not memorise words only. Read the example, try the guided task, then explain the idea in your own words.

A common mistake is finishing a product without planning, practising, improving, or explaining creative choices. Avoid it by checking your work against these success criteria:

- idea is planned
- skill is practised
- creative choices are explained

For Grade 10, use exam-ready precision with terms explained before use.

Inline visual support:

Creative process	Evidence in the work
Plan	Purpose, audience, material, and time.
Practise	Skill or technique tried slowly first.
Improve	One visible or audible change after feedback.
Explain	Why the choice fits the message or performance.

Method for Creative Arts: Create, perform, observe, improve, and reflect using local materials and culture.

Key words:

- Fabric Decoration: Batik. 2 colours Batik - Concept - Crackled effect -
- Fabric Decoration: Batik. 2 colours Batik - Concept - Crackled effect - textured effect - Materials and tools
- Fabric
- Decoration
- Batik.
- colours
- Batik
- Concept

Explain the idea in your own words before attempting the activities.

Fabric Decoration: Batik. 2 colours Batik - Concept - Crackled effect -: Worked Example

Studio model for Fabric Decoration: Batik. 2 colours Batik - Concept - Crackled effect -: Tie-dye or batik safety and quality.

Teacher-supervised procedure:

1. Sketch the pattern before using dye or wax.
2. Wear gloves and protect the work surface.
3. Tie, fold, stitch, or apply wax according to the planned pattern.
4. Apply dye carefully and keep colours labelled.
5. Rinse, dry, and evaluate the pattern after the teacher confirms it is safe.

Hazards: staining skin/clothes, hot wax, chemical irritation, spills, and slippery floors.

Quality criteria: clear pattern, controlled colour, safe handling, neat finishing, and explanation of design choices.

Fabric Decoration: Batik. 2 colours Batik - Concept - Crackled effect -: Activity

Activity for Fabric Decoration: Batik. 2 colours Batik - Concept - Crackled effect -: Use a safe creative-process checklist.

Inquiry question: Why is it not possible to have definite shapes when tie and dyeing?

1. Plan the purpose, audience, material, space, and time.
2. Identify hazards such as sharp tools, dyes, hot wax, dust, water, slippery surfaces, collision, or voice strain.
3. Practise the skill slowly before producing the final artwork, performance, or movement.
4. Ask for feedback on one visible or audible feature.
5. Improve one part and explain what changed.
6. Judge quality using technique, safety, creativity, finish, teamwork, and message.

Success criteria:

- idea is planned
- skill is practised
- creative choices are explained

Home link: Find a safe artwork, song, dance, craft, game, or performance example. Describe one technique and one safety rule.

Fabric Decoration: Batik. 2 colours Batik - Concept - Crackled effect -: Activity And Practice

Practice for Fabric Decoration: Batik. 2 colours Batik - Concept - Crackled effect -:

1. Carry out or describe a practical task for this outcome: analyse the concept of batik in fabric decoration. List materials, steps, safety checks, and how you will judge quality.
2. Carry out or describe a practical task for this outcome: batik fabric to create crackled and textured effect. List materials, steps, safety checks, and how you will judge quality.
3. Carry out or describe a practical task for this outcome: appraise own and others' decorated fabrics. List materials, steps, safety checks, and how you will judge quality.

Correction check:

- idea is planned
- skill is practised
- creative choices are explained

Reflection: What was easy? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for an example related to fabric decoration: batik. 2 colours batik - concept - crackled effect - and write two useful sentences about it.

Fabric Decoration: Batik. 2 colours Batik - Concept - Crackled effect -: Outcome Check

Outcome: analyse the concept of batik in fabric decoration

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Fabric Decoration: Batik. 2 colours Batik - Concept - Crackled effect -.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Fabric Decoration: Batik. 2 colours Batik - Concept - Crackled effect -: Outcome Check

Outcome: batik fabric to create crackled and textured effect

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Fabric Decoration: Batik. 2 colours Batik - Concept - Crackled effect -.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Fabric Decoration: Batik. 2 colours Batik - Concept - Crackled effect -: Outcome Check

Outcome: appraise own and others' decorated fabrics.

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Fabric Decoration: Batik. 2 colours Batik - Concept - Crackled effect -.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Multimedia Arts (2D Art): Chapter Review

Review the chapter carefully.

1. Write five key words from this chapter and explain each one.
2. Choose two units and compare what you learned.
3. Create one poster, chart, dialogue, model, map, or worked solution that teaches this chapter.
4. Answer one inquiry question again. Improve your first answer using what you now know.
5. Rate your confidence: high, medium, or needs practice.

Chapter: Indigenous Crafts (3D Art)

In this chapter you will study Indigenous Crafts (3D Art).

Inquiry starter: What do you already know about this topic from home, school, or your community?

Chapter units:

- 3.1 Pottery and Ceramics: Elements of 3-D Art
- 3.2 Sculpture- Carving Concepts of carving (materials-wood/stone/clay/, and tools, finishing technique) Process of carving (material preparation, designing,
- 3.3 Macrame
- 3.4 Jewellery and Ornamentation Concept analysis materials and tools techniques and processes functions
- 3.5 Art Appreciation

Before you begin, write two things you already know and one question you want to answer. As you study, collect examples from daily life. At the end of the chapter, return to your question and improve your answer using new vocabulary, examples, and evidence from the lessons.

Pottery and Ceramics: Elements of 3-D Art: Elements and Principles: Lesson Opener

Learning area: Pottery and Ceramics: Elements of 3-D Art: Elements and Principles

Start here: a drawing, design, music, dance, drama, craft, exhibition, or performance activity linked to Pottery and Ceramics: Elements of 3-D Art: Elements and Principles.

Curriculum link: This lesson follows the Grade 10 curriculum sequence and focuses on Pottery and Ceramics: Elements of 3-D Art: Elements and Principles.

By the end of this lesson sequence, you should be able to:

- discuss the elements and principles of 3-D art
- analyse properties of clay in pottery
- explain and apply pottery and ceramics: elements of 3-d art using clear examples and practice
- model a vase using the pellet technique

Inquiry questions:

- How can you overcome the challenges in modeling using pellet technique?
- What is the cultural and economical value of pottery?

Before reading, write one thing you already know and one question you want this lesson to answer.

Pottery and Ceramics: Elements of 3-D Art: Elements and Principles: Learn

Start with this real situation: a drawing, design, music, dance, drama, craft, exhibition, or performance activity linked to Pottery and Ceramics: Elements of 3-D Art: Elements and Principles.

The important idea is Pottery and Ceramics: Elements of 3-D Art: Elements and Principles. In this lesson, do not memorise words only. Read the example, try the guided task, then explain the idea in your own words.

A common mistake is finishing a product without planning, practising, improving, or explaining creative choices. Avoid it by checking your work against these success criteria:

- idea is planned
- skill is practised
- creative choices are explained

For Grade 10, use exam-ready precision with terms explained before use.

Inline visual support:

Creative process	Evidence in the work
Plan	Purpose, audience, material, and time.
Practise	Skill or technique tried slowly first.
Improve	One visible or audible change after feedback.
Explain	Why the choice fits the message or performance.

Method for Creative Arts: Create, perform, observe, improve, and reflect using local materials and culture.

Key words:

- Pottery and Ceramics: Elements of 3-D Art: Elements and Principles
- Pottery and Ceramics: Elements of 3-D Art
- Pottery
- Ceramics
- Elements
- Principles

Explain the idea in your own words before attempting the activities.

Pottery and Ceramics: Elements of 3-D Art: Elements and Principles: Worked Example

Craft model for Pottery and Ceramics: Elements of 3-D Art: Elements and Principles: Shape and finish a stable three-dimensional form safely.

Procedure:

1. Sketch the object and label materials, tools, joining method, and finish before starting.
2. Prepare clay, paper, paste, or other teacher-approved material safely.
3. Shape the object using the technique taught, such as coil, slab, throwing, casting, folding, joining, or modelling.
4. Check wall thickness, strength, balance, surface finish, safe tool use, and drying or firing requirements.
5. Improve one feature after feedback and explain the change using correct art vocabulary.

Rubric: excellent work is safely made, structurally stable, neatly finished, improved after feedback, and explained with the correct technique terms.

Pottery and Ceramics: Elements of 3-D Art: Elements and Principles: Activity

Activity for Pottery and Ceramics: Elements of 3-D Art: Elements and Principles: Use a safe creative-process checklist.

Inquiry question: How can you overcome the challenges in modeling using pellet technique?

1. Plan the purpose, audience, material, space, and time.
2. Identify hazards such as sharp tools, dyes, hot wax, dust, water, slippery surfaces, collision, or voice strain.
3. Practise the skill slowly before producing the final artwork, performance, or movement.
4. Ask for feedback on one visible or audible feature.
5. Improve one part and explain what changed.
6. Judge quality using technique, safety, creativity, finish, teamwork, and message.

Success criteria:

- idea is planned
- skill is practised
- creative choices are explained

Home link: Find a safe artwork, song, dance, craft, game, or performance example. Describe one technique and one safety rule.

Pottery and Ceramics: Elements of 3-D Art: Elements and Principles: Activity And Practice

Practice for Pottery and Ceramics: Elements of 3-D Art: Elements and Principles:

1. Carry out or describe a practical task for this outcome: discuss the elements and principles of 3-D art. List materials, steps, safety checks, and how you will judge quality.
2. Carry out or describe a practical task for this outcome: analyse properties of clay in pottery. List materials, steps, safety checks, and how you will judge quality.
3. Carry out or describe a practical task for this outcome: explain and apply pottery and ceramics: elements of 3-d art using clear examples and practice. List materials, steps, safety checks, and how you will judge quality.
4. Carry out or describe a practical task for this outcome: model a vase using the pellet technique. List materials, steps, safety checks, and how you will judge quality.

Correction check:

- idea is planned
- skill is practised
- creative choices are explained

Reflection: What was easy? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for an example related to pottery and ceramics: elements of 3-d art: elements and principles and write two useful sentences about it.

Pottery and Ceramics: Elements of 3-D Art: Elements and Principles: Outcome Check

Outcome: discuss the elements and principles of 3-D art

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Pottery and Ceramics: Elements of 3-D Art: Elements and Principles.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Pottery and Ceramics: Elements of 3-D Art: Elements and Principles: Outcome Check

Outcome: analyse properties of clay in pottery

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Pottery and Ceramics: Elements of 3-D Art: Elements and Principles.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Pottery and Ceramics: Elements of 3-D Art: Elements and Principles: Outcome Check

Outcome: explain and apply pottery and ceramics: elements of 3-d art using clear examples and practice

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Pottery and Ceramics: Elements of 3-D Art: Elements and Principles.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Pottery and Ceramics: Elements of 3-D Art: fire the pellet vases in a kiln: Lesson Opener

Learning area: Pottery and Ceramics: Elements of 3-D Art: fire the pellet vases in a kiln

Start here: a drawing, design, music, dance, drama, craft, exhibition, or performance activity linked to Pottery and Ceramics: Elements of 3-D Art: fire the pellet vases in a kiln.

Curriculum link: This lesson follows the Grade 10 curriculum sequence and focuses on Pottery and Ceramics: Elements of 3-D Art: fire the pellet vases in a kiln.

By the end of this lesson sequence, you should be able to:

- fire the pellet vases in a kiln
- appraise the hand-built pellet vases for feedback.

Inquiry questions:

- What is the cultural and economical value of pottery?

Before reading, write one thing you already know and one question you want this lesson to answer.

Pottery and Ceramics: Elements of 3-D Art: fire the pellet vases in a kiln: Learn

Reflection: What was easy? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for an example related to sculpture-carving concepts of carving (materials-wood/stone/clay/, and tools, finishing technique) process of: concept of carving technique and write two useful sentences about it.

Sculpture- Carving Concepts of carving (materials-wood/stone/clay/, and tools, finishing technique) Process of: concept of carving technique: Outcome Check

Outcome: analyse the concept of carving technique in sculpture

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Sculpture- Carving Concepts of carving (materials-wood/stone/clay/, and tools, finishing technique) Process of: concept of carving technique.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Sculpture- Carving Concepts of carving (materials-wood/stone/clay/, and tools, finishing technique) Process of: concept of carving technique: Outcome Check

Outcome: explain concept of relief sculpture

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Sculpture- Carving Concepts of carving (materials-wood/stone/clay/, and tools, finishing technique) Process of: concept of carving technique.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Sculpture- Carving Concepts of carving (materials-wood/stone/clay/, and tools, finishing technique) Process of: concept of carving technique: Outcome Check

Outcome: carve a relief sculpture for skill acquisition

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Sculpture- Carving Concepts of carving (materials-wood/stone/clay/, and tools, finishing technique) Process of: concept of carving technique.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Sculpture- Carving Concepts of carving (materials-wood/stone/clay/, and tools, finishing technique) Process of: own and others' relief: Lesson Opener

Learning area: Sculpture- Carving Concepts of carving (materials-wood/stone/clay/, and tools, finishing technique) Process of: own and others' relief

Start here: a drawing, design, music, dance, drama, craft, exhibition, or performance activity linked to Sculpture- Carving Concepts of carving (materials-wood/stone/clay/, and tools, finishing technique) Process of: own and others' relief.

Curriculum link: This lesson follows the Grade 10 curriculum sequence and focuses on Sculpture- Carving Concepts of carving (materials-wood/stone/clay/, and tools, finishing technique) Process of: own and others' relief.

By the end of this lesson sequence, you should be able to:

- value own and others' relief sculptural forms.

Inquiry questions:

- How are the principles of 3D art portrayed in sculpture?

Before reading, write one thing you already know and one question you want this lesson to answer.

Sculpture- Carving Concepts of carving (materials-wood/stone/clay/, and tools, finishing technique) Process of: own and others' relief: Learn

Start with this real situation: a drawing, design, music, dance, drama, craft, exhibition, or performance activity linked to Sculpture- Carving Concepts of carving (materials-wood/stone/clay/, and tools, finishing technique) Process of: own and others' relief.

The important idea is Sculpture- Carving Concepts of carving (materials-wood/stone/clay/, and tools, finishing technique) Process of: own and others' relief. In this lesson, do not memorise words only. Read the example, try the guided task, then explain the idea in your own words.

A common mistake is finishing a product without planning, practising, improving, or explaining creative choices. Avoid it by checking your work against these success criteria:

- idea is planned
- skill is practised
- creative choices are explained

For Grade 10, use exam-ready precision with terms explained before use.

Inline visual support:

Creative process	Evidence in the work
Plan	Purpose, audience, material, and time.
Practise	Skill or technique tried slowly first.
Improve	One visible or audible change after feedback.
Explain	Why the choice fits the message or performance.

Method for Creative Arts: Create, perform, observe, improve, and reflect using local materials and culture.

Key words:

- Sculpture- Carving Concepts of carving (materials-wood/stone/clay/, and tools, finishing technique)

Process of: own and others' relief

- Sculpture- Carving Concepts of carving (materials-wood/stone/clay/, and tools, finishing technique)

Process of carving (material preparation, designing

- Carving

- Concepts

- materials-wood/stone/clay/

- tools

- finishing

- technique)

Explain the idea in your own words before attempting the activities.

Sculpture- Carving Concepts of carving (materials-wood/stone/clay/, and tools, finishing technique) Process of: own and others' relief: Worked Example

Craft model for Sculpture- Carving Concepts of carving (materials-wood/stone/clay/, and tools, finishing technique) Process of: own and others' relief: Shape and finish a stable three-dimensional form safely.

Procedure:

1. Sketch the object and label materials, tools, joining method, and finish before starting.
2. Prepare clay, paper, paste, or other teacher-approved material safely.
3. Shape the object using the technique taught, such as coil, slab, throwing, casting, folding, joining, or modelling.
4. Check wall thickness, strength, balance, surface finish, safe tool use, and drying or firing requirements.
5. Improve one feature after feedback and explain the change using correct art vocabulary.

Rubric: excellent work is safely made, structurally stable, neatly finished, improved after feedback, and explained with the correct technique terms.

Sculpture- Carving Concepts of carving (materials-wood/stone/clay/, and tools, finishing technique) Process of: own and others' relief: Activity

Activity for Sculpture- Carving Concepts of carving (materials-wood/stone/clay/, and tools, finishing technique) Process of: own and others' relief: Use a safe creative-process checklist.

Inquiry question: How are the principles of 3D art portrayed in sculpture?

1. Plan the purpose, audience, material, space, and time.
2. Identify hazards such as sharp tools, dyes, hot wax, dust, water, slippery surfaces, collision, or voice strain.
3. Practise the skill slowly before producing the final artwork, performance, or movement.
4. Ask for feedback on one visible or audible feature.
5. Improve one part and explain what changed.
6. Judge quality using technique, safety, creativity, finish, teamwork, and message.

Success criteria:

- idea is planned
- skill is practised
- creative choices are explained

Home link: Find a safe artwork, song, dance, craft, game, or performance example. Describe one technique and one safety rule.

Sculpture- Carving Concepts of carving (materials-wood/stone/clay/, and tools, finishing technique) Process of: own and others' relief: Activity And Practice

Practice for Sculpture- Carving Concepts of carving (materials-wood/stone/clay/, and tools, finishing technique) Process of: own and others' relief:

1. Carry out or describe a practical task for this outcome: value own and others' relief sculptural forms. List materials, steps, safety checks, and how you will judge quality.

Correction check:

- idea is planned
- skill is practised
- creative choices are explained

Reflection: What was easy? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for an example related to sculpture-carving concepts of carving (materials-wood/stone/clay/, and tools, finishing technique) process of: own and others' relief and write two useful sentences about it.

Sculpture- Carving Concepts of carving (materials-wood/stone/clay/, and tools, finishing technique) Process of: own and others' relief: Outcome Check

Outcome: value own and others' relief sculptural forms.

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Sculpture- Carving Concepts of carving (materials-wood/stone/clay/, and tools, finishing technique) Process of: own and others' relief.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Macrame of macramé for familiarisation: Lesson Opener

Learning area: Macramet of macramé for familiarisation

Start here: a drawing, design, music, dance, drama, craft, exhibition, or performance activity linked to Macramenconcept of macramé for familiarisation.

Curriculum link: This lesson follows the Grade 10 curriculum sequence and focuses on Macramet of macramé for familiarisation.

By the end of this lesson sequence, you should be able to:

- describe the concept of macramé for familiarisation
- construct knots in macramé
- create a web using macramé knots
- make a macramé item with loose and tight webs

Inquiry questions:

- How can macramé be used to make wall hangings?
- How does choice of knots influence the appearance of macramé' item?

Before reading, write one thing you already know and one question you want this lesson to answer.

Macrame of macramé for familiarisation: Learn

Start with this real situation: a drawing, design, music, dance, drama, craft, exhibition, or performance activity linked to Macramenconcept of macramé for familiarisation.

The important idea is Macramenconcept of macramé for familiarisation. In this lesson, do not memorise words only. Read the example, try the guided task, then explain the idea in your own words.

A common mistake is finishing a product without planning, practising, improving, or explaining creative choices. Avoid it by checking your work against these success criteria:

- idea is planned
- skill is practised
- creative choices are explained

For Grade 10, use exam-ready precision with terms explained before use.

Inline visual support:

Creative process	Evidence in the work
Plan	Purpose, audience, material, and time.
Practise	Skill or technique tried slowly first.
Improve	One visible or audible change after feedback.
Explain	Why the choice fits the message or performance.

Method for Creative Arts: Create, perform, observe, improve, and reflect using local materials and culture.

Key words:

- Macramet of macramé for familiarisation
- Macrame
- Macramet
- macramé
- familiarisation

Explain the idea in your own words before attempting the activities.

Macrame of macramé for familiarisation: Worked Example

Creative process model for Macramencept of macramé for familiarisation: Choose the art form, practise the technique, and show improvement.

Procedure:

1. Choose the exact form for this topic: drawing, painting, craft, music, dance, drama, design, exhibition, or physical performance.
2. Define purpose, audience, material, space, and time.
3. Practise one core technique slowly before producing the final work.
4. Ask for feedback on one visible or audible feature.
5. Improve one part and explain what changed.

Rubric: excellent work has a clear idea, safe process, practised technique, visible improvement, teamwork where needed, and an explanation of creative choices.

Macrame of macramé for familiarisation: Activity

Activity for Macramencept of macramé for familiarisation: Use a safe creative-process checklist.

Inquiry question: How can macramé be used to make wall hangings?

1. Plan the purpose, audience, material, space, and time.
2. Identify hazards such as sharp tools, dyes, hot wax, dust, water, slippery surfaces, collision, or voice strain.
3. Practise the skill slowly before producing the final artwork, performance, or movement.
4. Ask for feedback on one visible or audible feature.
5. Improve one part and explain what changed.
6. Judge quality using technique, safety, creativity, finish, teamwork, and message.

Success criteria:

- idea is planned
- skill is practised
- creative choices are explained

Home link: Find a safe artwork, song, dance, craft, game, or performance example. Describe one technique and one safety rule.

Macrame of macramé for familiarisation: Activity And Practice

Practice for Macramet of macramé for familiarisation:

1. Carry out or describe a practical task for this outcome: describe the concept of macramé for familiarisation. List materials, steps, safety checks, and how you will judge quality.
2. Carry out or describe a practical task for this outcome: construct knots in macramé. List materials, steps, safety checks, and how you will judge quality.
3. Carry out or describe a practical task for this outcome: create a web using macramé knots. List materials, steps, safety checks, and how you will judge quality.
4. Carry out or describe a practical task for this outcome: make a macramé item with loose and tight webs. List materials, steps, safety checks, and how you will judge quality.

Correction check:

- idea is planned
- skill is practised
- creative choices are explained

Reflection: What was easy? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for an example related to macramet of macramé for familiarisation and write two useful sentences about it.

Macrame of macramé for familiarisation: Outcome Check

Outcome: describe the concept of macramé for familiarisation

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Macramenconcept of macramé for familiarisation.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Macrame of macramé for familiarisation: Outcome Check

Outcome: construct knots in macramé

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Macramencept of macramé for familiarisation.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Macrame of macramé for familiarisation: Outcome Check

Outcome: create a web using macramé knots

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Macramencept of macramé for familiarisation.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Macrame others' macramé artworks.: Lesson Opener

Learning area: Macramed others' macramé artworks.

Start here: a drawing, design, music, dance, drama, craft, exhibition, or performance activity linked to Macramen and others' macramé artworks.

Curriculum link: This lesson follows the Grade 10 curriculum sequence and focuses on Macramed others' macramé artworks.

By the end of this lesson sequence, you should be able to:

- appreciate own and others' macramé artworks.

Inquiry questions:

- How does choice of knots influence the appearance of macramé' item?

Before reading, write one thing you already know and one question you want this lesson to answer.

Macrame others' macramé artworks.: Learn

Start with this real situation: a drawing, design, music, dance, drama, craft, exhibition, or performance activity linked to Macramen and others' macramé artworks.

The important idea is Macramen and others' macramé artworks. In this lesson, do not memorise words only. Read the example, try the guided task, then explain the idea in your own words.

A common mistake is finishing a product without planning, practising, improving, or explaining creative choices. Avoid it by checking your work against these success criteria:

- idea is planned
- skill is practised
- creative choices are explained

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Jewellery and Ornamentation Concept analysis materials and tools techniques and processes functions: Lesson Opener

Learning area: Jewellery and Ornamentation Concept analysis materials and tools techniques and processes functions

Start here: a drawing, design, music, dance, drama, craft, exhibition, or performance activity linked to Jewellery and Ornamentation Concept analysis materials and tools techniques and processes functions.

Curriculum link: This lesson follows the Grade 10 curriculum sequence and focuses on Jewellery and Ornamentation Concept analysis materials and tools techniques and processes functions.

By the end of this lesson sequence, you should be able to:

- distinguish between jewellery and ornamentation
- make a jewellery using recyclable materials
- Appreciate own and others' mixed media artworks.

Inquiry questions:

- How does jewellery and ornamentation contribute to environmental conservation?
- How can the immediate environment provide inspiration for jewellery and ornamentation?

Before reading, write one thing you already know and one question you want this lesson to answer.

Jewellery and Ornamentation Concept analysis materials and tools techniques and processes functions: Learn

Start with this real situation: a drawing, design, music, dance, drama, craft, exhibition, or performance activity linked to Jewellery and Ornamentation Concept analysis materials and tools techniques and processes functions.

The important idea is Jewellery and Ornamentation Concept analysis materials and tools techniques and processes functions. In this lesson, do not memorise words only. Read the example, try the guided task, then explain the idea in your own words.

Art Appreciation: Activity And Practice

Practice for Art Appreciation:

1. Carry out or describe a practical task for this outcome: analyze legal issues in production and marketing of artwork. List materials, steps, safety checks, and how you will judge quality.
2. Carry out or describe a practical task for this outcome: formulate strategies of marketing artworks online. List materials, steps, safety checks, and how you will judge quality.
3. Carry out or describe a practical task for this outcome: appreciate strategies of online marketing of artworks. List materials, steps, safety checks, and how you will judge quality.

Correction check:

- idea is planned
- skill is practised
- creative choices are explained

Reflection: What was easy? What needs more practice? What question will you ask your teacher or study partner?

Home link: Ask someone at home for an example related to art appreciation and write two useful sentences about it.

Art Appreciation: Outcome Check

Outcome: analyze legal issues in production and marketing of artwork

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Art Appreciation.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Art Appreciation: Outcome Check

Outcome: formulate strategies of marketing artworks online

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Art Appreciation.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Art Appreciation: Outcome Check

Outcome: appreciate strategies of online marketing of artworks.

Show mastery with evidence.

1. Explain the outcome in your own words.
2. Give one local, school, home, community, practical, or text-based example.
3. Complete a short task that proves you can apply the idea in Art Appreciation.
4. Use correct vocabulary and include a reason, observation, example, step, or result.
5. Write one mistake a learner might make and how to avoid it.
6. Ask a peer, teacher, or parent to check whether your answer is clear.

Evidence of mastery: your work answers the exact outcome, gives a relevant example, and shows a correction after feedback.

Indigenous Crafts (3D Art): Chapter Review

Review the chapter carefully.

1. Write five key words from this chapter and explain each one.
2. Choose two units and compare what you learned.
3. Create one poster, chart, dialogue, model, map, or worked solution that teaches this chapter.
4. Answer one inquiry question again. Improve your first answer using what you now know.
5. Rate your confidence: high, medium, or needs practice.

Glossary

Use this glossary to revise important words in Creative Arts.

- Drawing: Elements, Principles, and Perspective: A creative skill or process that needs planning, safe practice, technique, improvement, and explanation of choices.
- Painting: Wash and Brush Spraying Techniques: A creative skill or process that needs planning, safe practice, technique, improvement, and explanation of choices.
- Collage: Single-Media and Mixed-Media: A creative skill or process that needs planning, safe practice, technique, improvement, and explanation of choices.
- Multimedia Arts (2D Art): A creative skill or process that needs planning, safe practice, technique, improvement, and explanation of choices.
- Graphic Design - Typography Calligraphy Block letters Graffiti letters: A creative skill or process that needs planning, safe practice, technique, improvement, and explanation of choices.
- Pottery and Ceramics: Elements of 3-D Art: A creative skill or process that needs planning, safe practice, technique, improvement, and explanation of choices.
- Indigenous Crafts (3D Art): A creative skill or process that needs planning, safe practice, technique, improvement, and explanation of choices.
- Macrame: A creative skill or process that needs planning, safe practice, technique, improvement, and explanation of choices.
- Art Appreciation: A creative skill or process that needs planning, safe practice, technique, improvement, and explanation of choices.

Add five more words from your lessons, then write a meaning and one correct example sentence or worked example for each word.

Answer And Teacher Notes

Most questions in this book are open practice tasks. A good answer should:

- respond to the exact question asked;
- use correct vocabulary from Creative Arts;
- include a clear example, reason, working, observation, or evidence;
- be neat enough for another learner to follow;
- show correction after feedback.

For calculations, check each step. For language work, check spelling, punctuation, grammar, and meaning. For practical subjects, check safety, materials, observations, and conclusion.

Answer-key guide: Social Studies answers should name the place, people, evidence, meaning, and responsible action. Agriculture answers should name tools, sequence, safety, observation, and care for living things. Creative Arts answers should show planning, technique, safety, improvement, and explanation of choices.

Rubric for self-checking:

- 4: The answer addresses the exact question, uses subject vocabulary correctly, gives evidence or working, and includes a useful check or correction.
- 3: The main answer is correct but one part needs stronger evidence, clearer working, better labels, or a fuller explanation.
- 2: Some understanding is shown, but the answer is incomplete, too general, or hard to follow.
- 1: The answer is guessed, off topic, or missing the evidence needed for the task.

Correction routine: reread the command word, underline the key data or evidence, improve one weak step, and write one sentence explaining why the final answer is reasonable.

Final Project

Create a final project for Creative Arts.

Your project must include:

1. A clear title.
2. A real-life problem or question.
3. Evidence from at least three lessons.
4. A drawing, table, map, chart, model, dialogue, performance plan, artwork note, or worked solution.
5. A short reflection explaining what you learned.

Present your project to a classmate, teacher, parent, or study group.
